

1 insulators, pipecoverers, developed the disease
2 asbestosis from use of end products; isn't that
3 correct?

4 A Yes. They found three cases. So it shows
5 that it did occur, assuming that that is what they did
6 for 20 years, which it is pointed out, which possibly
7 is true.

8 Q Isn't it pointed out in the article, Doctor,
9 that the individuals were pipecoverers, in the
10 pipecovering trade?

11 A Yes.

12 Q It is, isn't it?

13 A Yes.

14 Q Now, Fleischer-Drinker, just like Merewether
15 before it, you said didn't suggest a ban on asbestos
16 because they made recommendations about how to use it,
17 correct?

18 A Yes. It was thought, as their predecessors,
19 if you controlled the dust to a sufficient level, you
20 could use it safely.

21 Q Okay. And those recommendations included
