Subject: Request for Meeting: Implications of ECHA REACH Proposal on PFAS as Medical Propellants in Metered Dose Inhalers (MDIs)

Dear Maureen,

Thank you for your email. We are currently going through all the comments from the consultation and amending the background document. Hence, we will also take comments from your group into consideration. Given the large number of comments received, it will not be possible for us to have meetings with individual stakeholders to discuss their submitted input. However, in the case we have any questions on the information provided, we will contact the stakeholder who submitted the relevant comment.

Best regards,

Dr. Audun Heggelund (*he/him*)

Emne: Request for Meeting: Implications of ECHA REACH Proposal on PFAS as Medical Propellants in Metered Dose Inhalers (MDIs)

Dear Audun,

I am writing on behalf of the International Pharmaceutical Aerosol Consortium (IPAC) to request a meeting.

As background, [IPAC](#) is a consortium of medical inhaler manufacturers and is comprised of AstraZeneca, Boehringer Ingelheim, Chiesi Farmaceutici, GSK, Kindeva, Organon, Cipla and

Teva. IPAC has worked for many years on the issues relevant to the sustainability of medical inhalers (MDIs, DPIs, and SMIs). IPAC is a recognized NGO under the Montreal Protocol and I attended a side event in Bangkok last year during the Open Ended Working Group meeting where you presented. IPAC submitted a response to the ECHA consultation on PFAS. Copy attached for ease of reference.

We understand that you focus on issues relevant to fluorinated gases and would welcome the opportunity to share some of the unique context relevant to MDIs and answer any questions you may have.

Please let me know if we could schedule a Teams meeting in the coming weeks. Perhaps after the Easter break? Many thanks for considering.

Kind regards,
Maureen
