Dear Kehoe,

Thank you for your letter and for the copy of the interim report which is very interesting. The problem of tetramethyl lead seems to be settled favourably, at least for the moment. Some enquiries are now pending before parliament to which the Minister of Health will soon reply.

Luisa and I were very pleased to see you in Sestriere and our only regret is that your visit was much too short. Please convey my kindest regards to Mrs. Kehoe, and to yourself and Frank Princi my best greetings.

Sincerely yours,

Prof. Enrico C. Vigliani
