Mr. Glen D. Schaaf
Chemical Process Engineer
B. F. Goodrich Chemical Company
3135 Euclid Avenue
Cleveland, Ohio 44115

Dear Glen:

To date, we have not requested membership in The Vinyl Chloride Safety Association; and I seriously doubt if the request will be forthcoming in time for our attendance and participation in the February 10 and 11, 1971 meeting.

Recently, we had a change in top management of UNIROYAL Chemical Division of UNIROYAL, Inc. and, though I feel certain that our recommendation for membership will meet with favorable approval, clearance through the Legal Department, etc., and formal request for membership will consume more time than remains.

Therefore, please accept my apology for not participating in the excellent program planned and in particular in leading the discussion on the subject "Pressure Vessel Inspection and Record Keeping." Perhaps this subject can be deferred to a subsequent meeting.

In event there should occur a last minute change in the above, I will make our reservations at the Holiday Inn in Memphis, Tennessee and advise you with as much advanced notice as possible.

Very truly yours,

UNIROYAL CHEMICAL
DIVISION OF UNIROYAL, INC.

W. M. Cliff
