

MONSANTO CHEMICAL COMPANY
TEXAS CITY, TEXAS

September 9, 1958

To: VCM Personnel

Subject: VCM Supervisor Staffing

This notice serves to inform you of the present VCM supervisory staffing assignments.

J. W. Kongable will now devote the major portion of his time to the startup and operation of the oxidative chlorination unit. Bill will work with the research group in supervising the operation of Dept. 26.

L. B. Bullock will assume responsibility for the overall VCM operation with emphasis on planning and coordination functions. H. W. Cutcher will continue to supervise the overall VCM operation with emphasis on direct operation. D. H. Smith will continue in direct supervision of the EDC manufacturing-acetylene reaction units, and K. F. Webb will continue in direct supervision of the cracking-distillation units.

G. T. Ryan
