Dear Dr. O'Connor,

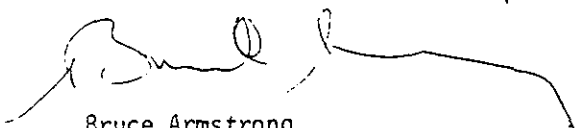

Further to our telephone conversation of 18th June, I wish to advise that:

- 1) We should be able to complete estimation of the expected numbers of cases of asbestos induced disease in the ex-Wittenoom workforce within the next three months provided that we can obtain the services of a statistician for that period. We do not have available to us the resources necessary to employ such a person and would be grateful if you could consider making a grant of about \$4,000 to cover this cost.
- 2) Michael Hobbs and I would be available for a meeting with staff of CSR in Sydney in the evening on either the 6th July or the 12th August should this be of assistance to you. The meeting would have to be timed to start after the arrival of the evening flights from Perth.

I look forward to hearing your reaction to these matters.

With best wishes,

Yours sincerely,

  
Bruce Armstrong
