LEAD HYGIENE AND SAFETY BULLETIN
NO. 159

To Members of the Lead Industries Association, Inc.:

NOTICE OF A COURSE ON TOXICOLOGY

On September 21-25, 1964 the New York University Post-Graduate Medical School will conduct a course on "Sources and Use of Toxicological Information" at its new school in Sterling Forest, Tuxedo, New York.

Because of the demand engendered at the time this course was given for the first time last year it is being repeated and this gives any of our members who care to send representatives an excellent opportunity to update their medical and industrial hygiene personnel in toxicology. We recommend that you avail yourself of this opportunity.

Please send your requests for information and registration blanks to:

Office of the Recorder
New York University Post-Graduate Medical School
550 First Avenue
New York 16, New York

The fee for the course is \$150, and since it is a course in residence at the Onchiota Conference Center there is an additional fee for living costs.
