

**WOULD YOU CLEAN ONLY PART OF YOUR FACE?**

No, of course, you wouldn't! Then why clean only *part* of the oil in your engine? Why be satisfied with anything less than the best protection you can give *your engine's moving parts*? Keep *all* your oil clean, and all the moving parts of your engine protected, with warranted Winslow Full-Flow Filters!

**WINSLOW FILTERS**

Winslow Engineering Company • 4069 Hollis St., Oakland 8, Calif.

HERE'S HOW TO

**Save WELDING FITTINGS**

Use this new precision "Universal" Flame Cutter for re-working, reconditioning and salvaging all types of new and used welding ells, tees, flanges, reducers, etc. Makes extremely clean cuts . . . no cleaning or hand fitting required. Adjustable degree plate permits fitting to be cut at any angle. Has antiflash control panel and antifloat gas control valve.

WHAT THE VERNON "UNIVERSAL" FLAME CUTTER DOES

- Shortens ells, tees, flanges, reducers, etc.
- Miters welding neck flanges.
- Re-cuts and bevels used ells, tees, swedges, returns.
- Reconditions welding neck and slip-on flanges.
- Reams extra heavy fittings to standard.
- Cuts small miters . . . 22½° or less.
- Cuts holes in blanks for slip-on reducing flanges.
- Cuts and bevels short pieces of pipe to 36" diameter.
- Makes swedges out of welding caps.
- Cuts miter elbows.

**Keep heat loss at a minimum with dependable**

# K & M Insulations

In the new addition to Public Service Company of New Hampshire's new Schiller Station at Portsmouth, N. H., K&M Insulations play an important part. All piping in this modern plant is insulated with "Featherweight" 85% Magnesia, and in combination with K&M Hy-Temp Insulation.

For efficient conservation of heat for temperatures up to 1900° F., these time-tested K&M products are the wise choice. By itself, famous "Featherweight", 85% Magnesia will effectively insulate temperatures up to 600° F. Used over a primary layer of K&M Hy-Temp (diatomaceous silica) Insulation, it is effective on applications up to 1900° F.

When the two layers of insulation are applied with staggered vertical and horizontal joints, there are no through joints to cause heat loss when the expansion of hot piping and equipment causes the joints to open—an advantage over single layer installations.

These heat-saving money-saving insulations are supplied in sections, blocks, and segments to suit them to any application. Your K&M distributor is an experienced applicator who will gladly tell you more about them. Or write direct for detailed information.

K&M best in asbestos
