Dr. Rutherford T. Johnstone
Brockman Building
520 West Seventh Street
Los Angeles, California 90014

Dear Doctor Johnstone:

Your letter of July 12th addressed to Dr. Nehoe in regard to the article in the New England Journal of Medicine arrived during his vacation. I shall bring it to his attention when he returns to the city on August 10th and trust that he will have time to answer it before he leaves for South America on August 17th.

Very truly yours,

Secretary

Dear Bob,

In the New England Journal of Medicine 269, 779-780, 1963
is a report of stippling of the retina in the early diagnosis
of lead poisoning. What do you know about this.

Sincerely,

Red

R. T. Johnstone, M.D.
