Eden Avenue
Cincinnati 19, Ohio

Dear Doctor Kehoe:

Thank you very much for your letter of May 19 concerning the blood smears.

I have gone over your suggestions with Mrs. Lloyd, our technician, and I believe that we will be able to correct our difficulties.

I would appreciate it if you could return the slides to us.

I further thank you for your letter concerning the lung abscess case we had. It may interest you to know that this case was disallowed in Compensation Court at the final hearing.

I wonder if you could suggest an up-to-date book on lead poisoning, which takes into account all the standards such as stipple counts, lead content in urine and stools, etc. We do have several references here, but they are not very recent nor are they very definite in their statements.

Thank you very much for your interest in these problems of ours.

Very truly yours

Ellsworth S. Deuel, M.D.
