Re: Peterson vs Union Carbide Corporation
Miscellaneous Data Requested

Dear Bob,

Enclosed are the following materials per your request.

1. Requests for Admissions
Shipping weights to ATC have been checked and additional data provided.
2. Copies of bag labels for chemicals other than PVC along with copies of recent PVC bag labels. The PVC bag labels should be added to the ones sent you on September 25. These are the only copies I have.
3. Amboy Terminal Company managers and UCC personnel involved with ATC.
4. Miscellaneous personnel addresses
Edward Bell had no direct responsibility for work with ATC but he managed PVC distribution for the business. There is no reason to contact him at present. David P. Romaine appears to be working in New Hampshire and lived at the telephone number listed. I didn't think I should contact him.

Very truly yours,

R. N. Wheeler, Jr.
