FILE NUMBER

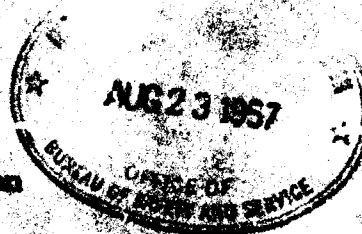

25-3 S. Permit #16

A-G

August 22, 1957

H. A. CAMPBELL, Chief Inspector

Mr. C. W. Taylor, Director
Bureau of Safety and Service
Interstate Commerce Commission
Washington 25, D.C.

Dear Sir:

Kindly refer to Special Permit No. 1662 issued August 16, 1956 to the B.F. Goodrich Chemical Co., Cleveland, Ohio, authorizing the transportation of uninhibited vinyl chloride in tank cars as prescribed in section 73.34(a) of Interstate Commerce Commission Regulations. This permit expires August 31, 1957.

While the matter of transporting uninhibited vinyl chloride in tank cars is being studied by interested technical associations, the study has not progressed to the extent that I am in a position to furnish you with a recommendation at this time insofar as a proposed amendment is concerned. Therefore, and inasmuch as the shipper has requested a revised permit, it is respectfully recommended that such a permit indicating an expiration date of August 31, 1958 be issued.

Yours truly,

H. A. Campbell
Chief Inspector
