July 26, 1982

To: Holders of Tennessee Pipeline Construction
Company Rate Schedules:

Attached are new Labor and Equipment Rate
Schedules that will become effective August 1, 1982.
Please note the following changes:

Change I. The overtime rate will
apply after ten (10) hours each
day, Saturdays, Sundays and
Holidays. In the past the over-
time rate was effective after
fifty (50) hours each week.

Change II. We added a small charge
to the equipment rate after ten
(10) hours each day - it was
necessary for us to do this to
help offset some of the operators
overtime.

Change III. We lowered the price of
of our 15-Yd Dump Truck from \$35.00
per hour to \$30.00 per hour for the
first ten (10) hours each day.

If you have any questions concerning these
schedules please call me.

Very truly yours,

TENNESSEE PIPELINE CONSTRUCTION CO.

TENNESSEE PIPELINE CONSTRUCTION CO.

**P. O. Box 9084
CORPUS CHRISTI, TEXAS 78408**

September 1, 1980

TO: Holders of Tennessee Pipeline Construction Company
Labor and Equipment Rate Schedules.

This is to advise that effective September 1, 1980,
time and one-half will be charged for force account labor
rates on hours worked in excess of fifty-five (55) hours
each week. Also, time and one-half will be charged on the
labor portion of the equipment rates. This change is for
the pipeline rates only, and has no bearing whatsoever on
the refinery rates.

The work week starts on Sunday and ends on Saturday.

Yours truly,

TENNESSEE PIPELINE CONSTRUCTION CO.

Jimmy C. Adair
President

Accident Reports
1972

DEPARTMENTAL CORRESPONDENCE

DATE June 30, 1972

SUBJECT TED MOORE BERRY CONTRACTING - ACCIDENT JUNE 29, 1972 AT #1 HYDEAL

TO R. J. Adams DEPT General Manager

FROM M. L. Alspaugh DEPT Maintenance Manager

Berry boilermakers, Ted Moore and Cliff Pennington, climbed to the top of the High Pressure Separator HL-V7 (D-5) at #1 Hydeal to replace a relief valve that had been removed by Coastal employee X. Carranza on Wednesday, June 21, 1972. Mr. Carranza removed the valve while working alone on the top platform and wearing a breathing air mask. Coastal employee I. Pena was standing by at the bottom of the tower while Mr. Carranza removed the relief valve. The top work platform is approximately 24 feet above the area paving. The work platform is small as per the attached drawing, the ladder has a safety cage and a safety chain at the top platform opening to the ladder.

Berry boilermakers, Moore and Pennington, climbed the tower to install the relief valve. As they started to pull the PSV up the tower to the top platform, Mr. Carranza shouted up to Mr. Pennington the gasket size and then to Mr. Moore to be sure and wear an air mask while covering his nose and mouth with his hand to indicate the wearing of an air mask and pointing to the breathing air trailer located by the heater to the North of the tower. Mr. Carranza assumed that Mr. Moore understood what he said because he did not ask Mr. Carranza to repeat what he had said as Mr. Pennington had done when they were discussing the gasket size.

Mr. Moore and Mr. Pennington started to loosen the flare line blind and some gas fumes escaped. They had not taken breathing air masks to the top platform with them. Mr. Moore climbed down to the ground level and told his Berry foreman, Mr. B. Lange, that gas was escaping from the flange and something would have to be done. Mr. Lange said it was vent gas and he would get a Coastal operator to see if they could block in the line. Mr. Lange then went to the control room to get a Coastal operator.

Mr. Moore climbed back up the tower to the top platform. Mr. Pennington asked him what Mr. Lange had said and Mr. Moore told him Mr. Lange said it was vent gas. Mr. Pennington then asked Mr. Moore if Mr. Lange wanted them to go ahead and remove the blind. Mr. Moore said that he did. Mr. Pennington told Mr. Moore to get on the up-wind side of the flare line blind which would be the South East side. They proceeded to remove the bolts from the blind. All bolts were removed except one and it was loose when a pressure surge hit and gas and liquid squirted out around the flange; Mr. Pennington told Mr. Moore again to come around where he was on the up-wind side of the flange. Mr. Moore turned to the North towards the ladder, he made a funny sound, spun around and seemed to sit down in the ladder opening, hitting his head on the cage and fell.

Berry Boilermakers, Ted Moore and Cliff Pennington, were on the top platform of the high pressure separator at the #1 Hydeal to install a relief valve. As they started to pull the relief valve up the tower, Coastal employees, X. Carranza and I. Pena, called up to Mr. Pennington to inform him of the correct gaskets to be used on the relief valve flanges. There was some communication back and forth between Mr. Carranza and Mr. Pennington about the gaskets. Mr. Pennington then moved out of Mr. Carranza's sight. Mr. Carranza called up to Mr. Moore and said to be sure and wear an air mask, while covering his nose and mouth with his hand to indicate the wearing of an air mask, and pointing to the breathing air trailer located by the heater North of the tower. Mr. Carranza and Mr. Pena then left the immediate vicinity.

Xavier Carranza
Ismael Pena Jr.

7/3/12

Berry Boilermakers, Ted Moore and Cliff Pennington, climbed to the top platform of the high pressure separator at the #1 Hydeal to install a relief valve. Mr. Moore came down the tower and the Berry Foreman, Mr. Lange, says that Mr. Moore told him that gas was escaping from the blind flange on the flare line and something would have to be done. Mr. Lange said that it was vent gas and he would get a Coastal Operator to see if they could block in the line. Mr. Lange then went to the control room to get a Coastal Operator and when he and the Operator returned they found out that Mr. Moore had fallen.

B R Lange
7-5-72

Berry Boilermakers

Ted Moore and Cliff Pennington climbed to the top platform of the high pressure separator at the #1 Hydeal Unit to install a relief valve. When they started to loosen the bolts on the blind flange on the flare line some gas escaped and Mr. Moore climbed down the tower to tell Berry Foreman, B. Lange, about the gas.

When Mr. Moore climbed back up the tower to the top platform Mr. Pennington asked him what Mr. Lange had said. Mr. Pennington says that Mr. Moore told him, "Mr. Lange said it was vent gas." Mr. Pennington then asked Mr. Moore if Mr. Lange wanted them to go ahead and remove the blind. Mr. Pennington says that Mr. Moore said he did.

Mr. Pennington told Mr. Moore to get on the up-wind side of the flare line blind which would be the South East side. They proceeded to remove the bolts from the blind. All bolts were removed except one and it was loose when a pressure surge hit and gas and liquid squirted out around the flange; Mr. Pennington told Mr. Moore again to come around where he was on the up-wind side of the flange. Mr. Moore turned to the North towards the ladder, he made a funny sound, spun around and seemed to sit down in the ladder opening, hitting his head on the cage and fell.

John Taylor
Foster Wheeler
7501 Mission Road
Prairie Village, Kansas

Dear John,

Confirming our discussions in Mr. Harry Brown's offices last week, we wish Foster Wheeler to proceed as soon as possible with further work on the isobutane cracking process.

We would like for you to prepare a process design for a unit sized to produce 2500 BCD of isobutylene (as 100% isobutylene). Actual design isobutylene purity should be 95%. The design should use the yield data from the high conversion run made in your pilot plant, identified as your test No. 233 in your letter of November 14, 1966. It now appears possible that in the commercial installation that we are considering an existing sulphuric acid extraction unit will be used in place of the isobutane-isobutylene fractionator. We will obtain data regarding the performance of this unit within the next few days and will be in touch with you to give you the necessary design information for this part of the unit. However, we would like to prepare the process design for both cases--with the fractionator and with the acid extraction unit, unless this necessitates two entirely separate designs and considerable extra expense. We will discuss and resolve this point as soon as the extraction unit data are available.

We would like for you to use the data from the process design to prepare a budget estimate of the cost of the plant, sizing and pricing major equipment and using factors to estimate the total cost.

In addition to the process and estimating work, we would like to authorize you to make additional pilot plant tests to provide us with more data on this process. However, the process work should not wait for the completion of these pilot plants tests. Specifically, we would like to investigate the possibility of reducing the diluent steam in the heater charge, we would like to investigate the effect of still higher conversions (say 70%) and we would like to perform a test run at about 50% conversion at what would be considered normal pressure for isobutane cracking, so that we can have a comparison of the yield effects and byproducts for the high pressure process versus normal conditions.

J. Tayler
January 14, 1967
Page 2

We will be in close touch with you as the work proceeds to answer any questions that arise and to be sure that we are not continuing any parts of the work that would not be beneficial to Coastal.

Very truly yours,

George F. Adams

Isobutane Pyrolysis Pilot Plant Project
F. W. Reference O-5-161803

Gentlemen:

We have advised you to proceed with pilot plant runs involving pyrolysis of isobutane. It is expected that information and data will be developed during the pilot plant program in connection with the above captioned project and this letter is to verify the fact that all of such information and data is to be the property of Coastal States Petrochemical Company. Foster Wheeler Corporation agrees that such information and data shall become the property of Coastal States according to the following terms:

- 1) All information developed during the pilot plant program in connection with the above project will be kept confidential within the Foster Wheeler organization, and Foster Wheeler shall cause its employees and/or agents to keep such information confidential. Such information will not be used for any purpose other than in connection with completing the work covered by purchase orders and/or subcontracts entered into by the parties hereto for the above-mentioned project unless Coastal States approves in writing a request for another use. Foster Wheeler further agrees to use its best efforts to prevent any third parties from obtaining such information and data directly.
- 2) This confidentiality agreement shall not apply to the following data:

October 19, 1966

(a) Information and data which at the time of disclosure is in the public domain; or which later becomes part of the public domain by publication or otherwise through no act of Foster Wheeler's from the time at which such information and data becomes a part of the public domain.

(b) Information which Foster Wheeler can demonstrate was in Foster Wheeler's possession prior to its disclosure.

(c) Information that may lawfully become available through some third party and not be otherwise in violation of this agreement.

In the event that this is your understanding of our agreement concerning the handling of such data, will you please indicate your acceptance and agreement in the space provided for herein below and returning two fully executed copies of this letter to us.

Yours very truly,

COASTAL STATES
PETROCHEMICAL COMPANY

COASTAL STATES PETROCHEMICAL COMPANY

CONTINUING MAINTENANCE OR CONSTRUCTION CONTRACT

WHEREAS, COASTAL STATES PETROCHEMICAL COMPANY, a Texas corporation, with principal offices located in Houston, Harris County, Texas, hereinafter called "COMPANY" is desirous of entering into a contract whereby COMPANY shall have the right, from time to time during the term hereof, to obtain needed fabrication, stress relieving, inspection services, maintenance, or construction work on or in connection with its Refinery and associated facilities located within COMPANY's operating area, which work includes, but is not limited to, construction, fabrication, stress relieving, repairs, relocations, alterations, taps, and minor installations, hereinafter called the "work;" and

WHEREAS, the undersigned contractor, hereinafter called "CONTRACTOR," represents that he is presently engaged in the business of providing such work, as an independent contractor, and that he is knowledgeable, experienced, and has competent personnel and equipment available to perform such work, and is desirous of performing and furnishing said work required by COMPANY, from time to time during the term hereof, within the said area.

NOW, THEREFORE, in consideration of the premises and in consideration of the sum of One Dollar (\$1.00) in hand paid by COMPANY to CONTRACTOR, the receipt and sufficiency of which is hereby acknowledged, the parties hereto do hereby mutually agree as follows:

1. CONTRACTOR agrees to have available at all times during the term hereof, competent and adequate labor and equipment of the type listed and shown on the attached Wage Rate Schedules and Equipment Rental Schedules, to perform work hereunder from time to time, when requested by COMPANY. In connection with the work to be performed hereunder, COMPANY agrees to advise CONTRACTOR of each specific job of work that COMPANY desires to have CONTRACTOR perform and to provide CONTRACTOR with any drawings, plan, instructions and/or specifications that COMPANY may have prepared in connection therewith, with any such drawings, plans, instructions and/or specifications so provided or furnished by COMPANY to be a part hereof, the same as if copied verbatim herein.
2. CONTRACTOR and COMPANY agree that no work will be performed by CONTRACTOR hereunder unless COMPANY, by and through one of its authorized representatives, specifically requests that CONTRACTOR perform such work.
3. CONTRACTOR agrees that nothing stated herein shall be considered in any manner, to give CONTRACTOR the exclusive right to perform inspection services, stress relieving, x-ray, maintenance, or construction work for COMPANY within the COMPANY's operating area or within any area, but that the intent and purpose of this agreement is for COMPANY to have an independent contractor available to perform such work when needed, from time to time, with the prices, terms and conditions thereof being agreed to in advance, with COMPANY being free to perform such work either by itself or by and through others.
4. COMPANY agrees to pay and CONTRACTOR agrees to accept, as total consideration to be paid to CONTRACTOR hereunder, the total amount of money arrived at by multiplying the actual number of work hours actually performed by CONTRACTOR by the appropriate item, both labor and equipment, on the Equipment List and Rental Schedule and Wage Rate Schedule attached hereto and made a part hereof. In connection with the said Schedules attached hereto, CONTRACTOR agrees that the prices set out therein cover all profit, overhead and all other considerations that CONTRACTOR shall be entitled to receive in connection with the work.

The consideration shall be payable to CONTRACTOR as follows:

a. Upon the undertaking of any specific job, such as turnarounds and major capital projects, CONTRACTOR agrees to prepare and submit to COMPANY on a daily basis, an itemized invoice properly listing and setting forth the number of hours actually performed, both labor and equipment, and, at the end of the specific job, to submit proper proof to COMPANY that CONTRACTOR has paid all bills and claims for labor, material, equipment and supplies and that there are no liens or claims outstanding that could become liens, or any outstanding claims for damages as mentioned in Paragraph 6. COMPANY agrees, subject to the right to make any necessary corrections and subject to satisfying itself that there are no such outstanding bills or claims, to remit final payment for each specific project promptly upon receipt thereof.

b. For general plant maintenance and miscellaneous small projects of whatever nature, weekly invoices will be submitted as in Paragraph 4a above.

It shall be the responsibility of COMPANY to notify CONTRACTOR as soon as possible the type of project that is undertaken under 4a or 4b above.

CONTRACTOR shall coordinate with COMPANY's Planning Office on the maintenance and submitting of daily time cards for each man and each piece of CONTRACTOR's equipment in COMPANY's plant for whatever project. CONTRACTOR will also submit daily time sheets to the Planning Office, signed by CONTRACTOR's Foreman and a COMPANY Representative.

5. CONTRACTOR agrees, in the performance of this contract, that he, whether such CONTRACTOR be a corporation or not, is acting and will act at all times as an independent contractor. All personnel utilized by CONTRACTOR in connection with this contract shall be the employees of CONTRACTOR and subject to CONTRACTOR's sole and exclusive supervision, direction and control, with it being distinctly understood that COMPANY shall in no wise be associated with or connected with the details or the method and manner employed to perform the work, but that COMPANY is interested in the end result to be accomplished and the final performance of the objectives of the project specified herein. COMPANY being interested in the end result, shall have the right at all times to halt the work for such periods only as may be reasonably necessary for COMPANY to determine whether or not all of the work being performed complies with this contract and the end objective. CONTRACTOR shall be solely liable and responsible for all withholding, salaries, wages, insurance, benefits and all other similar obligations relating to CONTRACTOR's personnel and labor.

6. CONTRACTOR agrees, in the performance of each and every part of this contract and all of the work to be performed that CONTRACTOR shall be solely liable for all overhead, labor, equipment, expenses, materials and supplies in connection therewith and CONTRACTOR agrees to hold COMPANY harmless of, from and against and to indemnify COMPANY from any claims for any of the aforesaid items from any person asserting same. Further, CONTRACTOR agrees to indemnify, defend and hold COMPANY harmless of, from and against all claims for damage of any nature whatsoever, including but not limited to, bodily injury, death or property damage, arising out of or connected with the work to be performed hereunder.

7. CONTRACTOR shall maintain, at all times during the term hereof, sufficient insurance satisfactory to COMPANY, and as may be required by law to protect CONTRACTOR and COMPANY from and against all claims, demands, and causes of action arising by reason of any work performed by CONTRACTOR, which insurance shall be written as specified in Exhibit "A" attached.

8. CONTRACTOR shall not assign this contract or subcontract the whole or any part of said work without COMPANY's prior written consent. COMPANY's consent to any assignment or subcontract shall not relieve CONTRACTOR, or CONTRACTOR's surety, if there be a surety, of any liability for the full and faithful performance of this contract according to its terms and conditions.

9. COMPANY shall have the right at all reasonable times to inspect and audit the books of CONTRACTOR pertaining to the work and to this contract; provided, however, that CONTRACTOR shall have right to exclude any trade secrets, formulas or process from such inspection.

10. CONTRACTOR hereby authorizes COMPANY to deduct from any amount payable to CONTRACTOR (whether or not arising out of this contract) all amounts which may be payable by CONTRACTOR to COMPANY, and also all amounts for which COMPANY may become liable to third parties by reason of CONTRACTOR's act in performing or failing to perform CONTRACTOR's obligations under this contract or growing out of this contract, and in the event that any claim is made by third party, or any indebtedness shall exist which shall appear to be the basis for a claim or lien, COMPANY may withhold from any payment due, without liability because of such withholding, an amount sufficient to cover such claim. The failure of COMPANY to exercise such right to deduct or to withhold shall not, however, affect the obligation of CONTRACTOR to protect COMPANY as elsewhere provided herein.

11. In the event CONTRACTOR is prevented from continuing or completing any given work hereunder because of an act of God or public enemy, strike, lockout, boycott, picketing, riot, insurrection, or any governmental order, rule or regulation, or any ordinance, or failure to delay on the part of COMPANY, then, notwithstanding anything herein contained to the contrary CONTRACTOR shall not be liable to COMPANY in damages on account thereof, but COMPANY shall have the right at its election to cancel any work, labor, or equipment furnished by CONTRACTOR in connection with any given project or job begun under this contract, by paying to CONTRACTOR, for work done prior to the time of the exercise of such election. If COMPANY does not elect to cancel such work under this contract, then the time for completing the said project shall be extended for such time as CONTRACTOR is so prevented from completing said work. Further, in the event COMPANY is prevented or hindered in the continuance of any such work because of any act of God or public enemy, strike, lockout, boycott, picketing, riot, insurrection, or any other reason over which COMPANY has no reasonable control, then COMPANY may suspend or cancel any of the work being performed hereunder in connection with such project or job without liability. Any payment made by COMPANY under this paragraph shall be subject to and in accordance with the last paragraph of Paragraph 4.

12. If any work provided for by this contract was commenced by CONTRACTOR under oral agreement prior to the execution of this contract, this written contract shall apply thereto in the same manner as if made before said work was commenced.

13. Anything to the contrary notwithstanding, it is expressly understood and agreed by and between COMPANY and CONTRACTOR that COMPANY shall have the right, in its sole and uncontrolled discretion, to discontinue, in whole or in part, any project where CONTRACTOR may be performing work, by providing notice to CONTRACTOR; whereupon COMPANY's only obligation shall be to pay CONTRACTOR for all work performed prior to the date of termination. Such payment to be made after CONTRACTOR has provided proof that there are no outstanding claims for death, injury or property damage and/or for labor, material, equipment and supplies that could result in a lien.

14. If applicable, CONTRACTOR agrees to comply with Executive Order 11246 which pertains to fair employment practices, and such rules, regulations and orders thereunder.

15. It is understood and agreed that COMPANY may require, as a condition precedent to any work being begun hereunder, that CONTRACTOR provide a Performance Bond and/or a Payment Bond with the understanding that if a Bond is required, that the same will be with a surety or bonding company satisfactory to COMPANY and in a form and with provisions satisfactory to COMPANY, but that COMPANY will reimburse CONTRACTOR for the actual premium cost thereof, less any rebate or discount.

16. CONTRACTOR agrees that the work will be performed in compliance with all applicable governmental laws, rules and regulations and applicable requirements, if any.

17. In addition to the consideration set out in Paragraph 4 hereof, COMPANY and CONTRACTOR agree that in the event COMPANY specifically requests CONTRACTOR to furnish any pipe, fittings, parts or other permanent materials or subcontract services which will become a part of the Refinery or other facilities of COMPANY (excluding, however, welding rods and similar consumable construction materials), then COMPANY agrees to pay and CONTRACTOR agrees to accept as full and total consideration therefor, CONTRACTOR's actual cost of such materials plus Ten Per Cent (10%). No such permanent materials will be supplied by CONTRACTOR unless specifically requested by COMPANY and signed for by a COMPANY Representative upon delivery to COMPANY premises.

18. The term of this agreement shall be for one year, and may be extended thereafter by mutual agreement of COMPANY and CONTRACTOR. The CONTRACTOR may, as need arises, submit new or revised Equipment Lists and Rental Schedules and/or Wage Rate Schedules on a timely basis, avoiding retroactive increases whenever possible. If the new rate schedules are deemed acceptable by the COMPANY, the new or revised schedule will be attached to and made part of this agreement as of the effective date of the new rate schedules, and will supersede and replace all previous rate schedules. In the event that the COMPANY does not agree to or accept new or revised rate schedules, then this contract may be terminated in its entirety without further liability.

19. Any notices and/or invoices provided for in this agreement shall be mailed to:

CONTINUING MAINTENANCE OR CONSTRUCTION CONTRACT

WHEREAS, COASTAL STATES PETROCHEMICAL COMPANY, a Texas corporation, with principal offices located in Houston, Harris County, Texas, hereinafter called "COMPANY" is desirous of entering into a contract whereby COMPANY shall have the right, from time to time during the term hereof, to obtain needed fabrication, stress relieving, inspection services, maintenance, or construction work on or in connection with its Refinery and associated facilities located within COMPANY's operating area, which work includes, but is not limited to, construction, fabrication, stress relieving, repairs, relocations, alterations, taps, and minor installations, hereinafter called the "work;" and

WHEREAS, the undersigned contractor, hereinafter called "CONTRACTOR," represents that he is presently engaged in the business of providing such work, as an independent contractor, and that he is knowledgeable, experienced, and has competent personnel and equipment available to perform such work, and is desirous of performing and furnishing said work required by COMPANY, from time to time during the term hereof, within the said area.

NOW, THEREFORE, in consideration of the premises and in consideration of the sum of One Dollar (\$1.00) in hand paid by COMPANY to CONTRACTOR, the receipt and sufficiency of which is hereby acknowledged, the parties hereto do hereby mutually agree as follows:

1. CONTRACTOR agrees to have available at all times during the term hereof, competent and adequate labor and equipment of the type listed and shown on the attached Wage Rate Schedules and Equipment Rental Schedules, to perform work hereunder from time to time, when requested by COMPANY. In connection with the work to be performed hereunder, COMPANY agrees to advise CONTRACTOR of each specific job of work that COMPANY desires to have CONTRACTOR perform and to provide CONTRACTOR with any drawings, plan, instructions and/or specifications that COMPANY may have prepared in connection therewith, with any such drawings, plans, instructions and/or specifications so provided or furnished by COMPANY to be a part hereof, the same as if copied verbatim herein.

2. CONTRACTOR and COMPANY agree that no work will be performed by CONTRACTOR hereunder unless COMPANY, by and through one of its authorized representatives, specifically requests that CONTRACTOR perform such work.

3. CONTRACTOR agrees that nothing stated herein shall be considered in any manner, to give CONTRACTOR the exclusive right to perform inspection services, stress relieving, x-ray, maintenance, or construction work for COMPANY within the COMPANY's operating area or within any area, but that the intent and purpose of this agreement is for COMPANY to have an independent contractor available to perform such work when needed, from time to time, with the prices, terms and conditions thereof being agreed to in advance, with COMPANY being free to perform such work either by itself or by and through others.

4. COMPANY agrees to pay and CONTRACTOR agrees to accept, as total consideration to be paid to CONTRACTOR hereunder, the total amount of money arrived at by multiplying the actual number of work hours actually performed by CONTRACTOR by the appropriate item, both labor and equipment, on the Equipment List and Rental Schedule and Wage Rate Schedule attached hereto and made a part hereof. In connection with the said Schedules attached hereto, CONTRACTOR agrees that the prices set out therein cover all profit, overhead and all other considerations that CONTRACTOR shall be entitled to receive in connection with the work.

The consideration shall be payable to CONTRACTOR as follows:

a. Upon the undertaking of any specific job, such as turnarounds and major capital projects, CONTRACTOR agrees to prepare and submit to COMPANY on a daily basis, an itemized invoice properly listing and setting forth the number of hours actually performed, both labor and equipment, and, at the end of the specific job, to submit proper proof to COMPANY that CONTRACTOR has paid all bills and claims for labor, material, equipment and supplies and that there are no liens or claims outstanding that could become liens, or any outstanding claims for damages as mentioned in Paragraph 6. COMPANY agrees, subject to the right to make any necessary corrections and subject to satisfying itself that there are no such outstanding bills or claims, to remit final payment for each specific project promptly upon receipt thereof.

b. For general plant maintenance and miscellaneous small projects of whatever nature, weekly invoices will be submitted as in Paragraph 4a above.

It shall be the responsibility of COMPANY to notify CONTRACTOR as soon as possible the type of project that is undertaken under 4a or 4b above.

CONTRACTOR shall coordinate with COMPANY's Planning Office on the maintenance and submitting of daily time cards for each man and each piece of CONTRACTOR's equipment in COMPANY's plant for whatever project. CONTRACTOR will also submit daily time sheets to the Planning Office, signed by CONTRACTOR's Foreman and a COMPANY Representative.

5. CONTRACTOR agrees, in the performance of this contract, that he, whether such CONTRACTOR be a corporation or not, is acting and will act at all times as an independent contractor. All personnel utilized by CONTRACTOR in connection with this contract shall be the employees of CONTRACTOR and subject to CONTRACTOR's sole and exclusive supervision, direction and control, with it being distinctly understood that COMPANY shall in no wise be associated with or connected with the details or the method and manner employed to perform the work, but that COMPANY is interested in the end result to be accomplished and the final performance of the objectives of the project specified herein. COMPANY being interested in the end result, shall have the right at all times to halt the work for such periods only as may be reasonably necessary for COMPANY to determine whether or not all of the work being performed complies with this contract and the end objective. CONTRACTOR shall be solely liable and responsible for all withholding, salaries, wages, insurance, benefits and all other similar obligations relating to CONTRACTOR's personnel and labor.

6. CONTRACTOR agrees, in the performance of each and every part of this contract and all of the work to be performed that CONTRACTOR shall be solely liable for all overhead, labor, equipment, expenses, materials and supplies in connection therewith and CONTRACTOR agrees to hold COMPANY harmless of, from and against and to indemnify COMPANY from any claims for any of the aforesaid items from any person asserting same. Further, CONTRACTOR agrees to indemnify, defend and hold COMPANY harmless of, from and against all claims for damage of any nature whatsoever, including but not limited to, bodily injury, death or property damage, arising out of or connected with the work to be performed hereunder.

7. CONTRACTOR shall maintain, at all times during the term hereof, sufficient insurance satisfactory to COMPANY, and as may be required by law to protect CONTRACTOR and COMPANY from and against all claims, demands, and causes of action arising by reason of any work performed by CONTRACTOR, which insurance shall be written as specified in Exhibit "A" attached.

8. CONTRACTOR shall not assign this contract or subcontract the whole or any part of said work without COMPANY's prior written consent. COMPANY's consent to any assignment or subcontract shall not relieve CONTRACTOR, or CONTRACTOR's surety, if there be a surety, of any liability for the full and faithful performance of this contract according to its terms and conditions.

9. COMPANY shall have the right at all reasonable times to inspect and audit the books of CONTRACTOR pertaining to the work and to this contract; provided, however, that CONTRACTOR shall have right to exclude any trade secrets, formulas or process from such inspection.

10. CONTRACTOR hereby authorizes COMPANY to deduct from any amount payable to CONTRACTOR (whether or not arising out of this contract) all amounts which may be payable by CONTRACTOR to COMPANY, and also all amounts for which COMPANY may become liable to third parties by reason of CONTRACTOR's act in performing or failing to perform CONTRACTOR's obligations under this contract or growing out of this contract, and in the event that any claim is made by third party, or any indebtedness shall exist which shall appear to be the basis for a claim or lien, COMPANY may withhold from any payment due, without liability because of such withholding, an amount sufficient to cover such claim. The failure of COMPANY to exercise such right to deduct or to withhold shall not, however, affect the obligation of CONTRACTOR to protect COMPANY as elsewhere provided herein.

11. In the event CONTRACTOR is prevented from continuing or completing any given work hereunder because of an act of God or public enemy, strike, lockout, boycott, picketing, riot, insurrection, or any governmental order, rule or regulation, or any ordinance, or failure to delay on the part of COMPANY, then, notwithstanding anything herein contained to the contrary CONTRACTOR shall not be liable to COMPANY in damages on account thereof, but COMPANY shall have the right at its election to cancel any work, labor, or equipment furnished by CONTRACTOR in connection with any given project or job begun under this contract, by paying to CONTRACTOR, for work done prior to the time of the exercise of such election. If COMPANY does not elect to cancel such work under this contract, then the time for completing the said project shall be extended for such time as CONTRACTOR is so prevented from completing said work. Further, in the event COMPANY is prevented or hindered in the continuance of any such work because of any act of God or public enemy, strike, lockout, boycott, picketing, riot, insurrection, or any other reason over which COMPANY has no reasonable control, then COMPANY may suspend or cancel any of the work being performed hereunder in connection with such project or job without liability. Any payment made by COMPANY under this paragraph shall be subject to and in accordance with the last paragraph of Paragraph 4.

12. If any work provided for by this contract was commenced by CONTRACTOR under oral agreement prior to the execution of this contract, this written contract shall apply thereto in the same manner as if made before said work was commenced.

13. Anything to the contrary notwithstanding, it is expressly understood and agreed by and between COMPANY and CONTRACTOR that COMPANY shall have the right, in its sole and uncontrolled discretion, to discontinue, in whole or in part, any project where CONTRACTOR may be performing work, by providing notice to CONTRACTOR; whereupon COMPANY's only obligation shall be to pay CONTRACTOR for all work performed prior to the date of termination. Such payment to be made after CONTRACTOR has provided proof that there are no outstanding claims for death, injury or property damage and/or for labor, material, equipment and supplies that could result in a lien.

14. If applicable, CONTRACTOR agrees to comply with Executive Order 11246 which pertains to fair employment practices, and such rules, regulations and orders thereunder.

15. It is understood and agreed that COMPANY may require, as a condition precedent to any work being begun hereunder, that CONTRACTOR provide a Performance Bond and/or a Payment Bond with the understanding that if a Bond is required, that the same will be with a surety or bonding company satisfactory to COMPANY and in a form and with provisions satisfactory to COMPANY, but that COMPANY will reimburse CONTRACTOR for the actual premium cost thereof, less any rebate or discount.

16. CONTRACTOR agrees that the work will be performed in compliance with all applicable governmental laws, rules and regulations and applicable requirements, if any.

17. In addition to the consideration set out in Paragraph 4 hereof, COMPANY and CONTRACTOR agree that in the event COMPANY specifically requests CONTRACTOR to furnish any pipe, fittings, parts or other permanent materials or subcontract services which will become a part of the Refinery or other facilities of COMPANY (excluding, however, welding rods and similar consumable construction materials), then COMPANY agrees to pay and CONTRACTOR agrees to accept as full and total consideration therefor, CONTRACTOR's actual cost of such materials plus Ten Per Cent (10%). No such permanent materials will be supplied by CONTRACTOR unless specifically requested by COMPANY and signed for by a COMPANY Representative upon delivery to COMPANY premises.

18. The term of this agreement shall be for one year, and may be extended thereafter by mutual agreement of COMPANY and CONTRACTOR. The CONTRACTOR may, as need arises, submit new or revised Equipment Lists and Rental Schedules and/or Wage Rate Schedules on a timely basis, avoiding retroactive increases whenever possible. If the new rate schedules are deemed acceptable by the COMPANY, the new or revised schedule will be attached to and made part of this agreement as of the effective date of the new rate schedules, and will supersede and replace all previous rate schedules. In the event that the COMPANY does not agree to or accept new or revised rate schedules, then this contract may be terminated in its entirety without further liability.

19. Any notices and/or invoices provided for in this agreement shall be mailed to:

COMPANY: Coastal States Petrochemical Company
P. O. Box 109
Corpus Christi, Texas 78403
Attn: Field Administrative Supervisor

CONTRACTOR: Tennessee Pipeline Construction Company

CONTRACTOR:

TENNESSEE PIPELINE
CONSTRUCTION COMPANY

By [Signature]
Title: President

EXHIBIT "A"

- I. Contractor shall, during the progress of the work, carry, at its own expense, on forms and in reliable insurance companies selected by Contractor and acceptable to Company, and authorized to do business in the state or area in which the work is to be performed hereunder, the following minimum insurance coverage:
 - A. Worker's Compensation including Occupational Disease Insurance as required by law and Employer's Liability Insurance with limits of not less than \$100,000 for injuries to or death of more than one person resulting from any accident or occupational disease covering all workplaces involved in this Contract.
 - B. Comprehensive General Liability Insurance, including Premises/Operations, Contractual, Products/Completed Operations, and Contractor's Contingent Liability with respect to subcontractors, with Bodily Injury Liability limits of \$500,000 for injury or death resulting from any one occurrence, and Property Damage Liability limit of not less than \$300,000 per occurrence, including damage to Company's property.
 - C. Automobile Liability Insurance, including all non-owned, hired, rented, or owned equipment, with Bodily Injury Liability limit of not less than \$100,000 for injuries to or death of any one person and not less than \$300,000 for injuries to or death of more than one person resulting from any one occurrence, and Property Damage Liability limit of not less than \$100,000 per occurrence.
 - D. Umbrella Liability Insurance in excess of the above primary limits to a combined single limit for bodily injury and property damage of not less than \$2,000,000.
 - E. All policies providing coverage hereunder shall contain provisions that no cancellation or material changes in the policies shall become effective except on thirty (30) days' written notice thereof to Company, through the Contract Administrator who originated the contract.

- II. All of the above described insurance policies shall contain provisions that the insurance companies will have no right of recovery or subrogation against Coastal Company, its divisions, affiliates, or subsidiary companies, it being the intention of the parties that the insurance so effected shall protect all parties, and the Contractor's carrier shall be liable for any and all losses covered by the above-described insurance.
- III. Any and all deductibles in the above-described insurance policies shall be assumed by, for the account of, and at Contractor's sole risk.
- IV. Before work is actually commenced under the terms of this Contract, Contractor shall secure and deliver to Company certificates evidencing that insurance coverages of the types and limits provided for above are in full force and effect. If requested by Company, Contractor shall furnish to Company Contract Administrator certified copies of all such policies.
- V. When requested by Company, Contractor shall furnish, or cause to be furnished to the Contract Administrator in the manner above provided, certificates of insurance coverage for each subcontractor in minimum amounts deemed necessary by Contractor to cover the work of the particular subcontractor. Should insurance requirements for a subcontractor be less than the minimum requirements for Contractor, as set out above, Company may, at its option require Contractor to secure such minimum coverage.
- VI. Failure to secure the insurance coverages, or the failure to comply fully with any of the insurance provisions of this Contract, or the failure to secure such endorsements on the policies as may be necessary to carry out the terms and provisions of this Contract, shall in no way act to relieve Contractor from the obligations of this Contract, anything in this Contract to the contrary notwithstanding. In the event that liability for any loss or damage be denied by the underwriter or underwriters for any other reason, or if Contractor fails to maintain any of the insurance herein required, Contractor will hold harmless, defend and indemnify Company against all losses,

claims, demands, and expenses, including attorney's fees, which would otherwise be covered by said insurance.

- VII. In the event Company should desire any other type of insurance during the construction period, such insurance shall be provided by Contractor with such firm or firms as Company may direct and Company shall be named on the policy as an additional assured, and the Contract Price shall be adjusted by an amount equal to the cost of such insurance.
- VIII. Notwithstanding any other provision of this Contract, the insurance protection afforded Company under this Contract shall inure to the benefit of Company and all of its subsidiary and affiliated companies; and when so requested by Company, Contractor shall furnish certificates of insurance showing such subsidiary and affiliated companies as insured.

July 26, 1982

To: Holders of Tennessee Pipeline Construction
Company Rate Schedules:

Attached are new Labor and Equipment Rate
Schedules that will become effective August 1, 1982.
Please note the following changes:

Change I. The overtime rate will
apply after ten (10) hours each
day, Saturdays, Sundays and
Holidays. In the past the over-
time rate was effective after
fifty (50) hours each week.

Change II. We added a small charge
to the equipment rate after ten
(10) hours each day - it was
necessary for us to do this to
help offset some of the operators
overtime.

Change III. We lowered the price of
of our 15-Yd Dump Truck from \$35.00
per hour to \$30.00 per hour for the
first ten (10) hours each day.

If you have any questions concerning these
schedules please call me.

Very truly yours,

TENNESSEE PIPELINE CONSTRUCTION CO.

September 1, 1980

TO: Holders of Tennessee Pipeline Construction Company
Labor and Equipment Rate Schedules.

This is to advise that effective September 1, 1980,
time and one-half will be charged for force account labor
rates on hours worked in excess of fifty-five (55) hours
each week. Also, time and one-half will be charged on the
labor portion of the equipment rates. This change is for
the pipeline rates only, and has no bearing whatsoever on
the refinery rates.

The work week starts on Sunday and ends on Saturday.

Yours truly,

TENNESSEE PIPELINE CONSTRUCTION CO.

Jimmy C. Adair
President

Re: Labor and Equipment
Rate Schedules

Dear Mr. Alspaugh:

Attached hereto are copies of Tennessee Pipeline Construction Company's Construction Labor and Equipment Rates.

As we discussed the other day, these are the rate schedules we will be operating under on a fifty (50) hour work week while doing construction work in the plant.

Very truly yours,

TENNESSEE PIPELINE CONSTRUCTION CO.

Mr. V. A. Cornell
Coastal States Petrochemical Co.
P. O. Drawer 521
Corpus Christi, Texas 78403

Dear Mr. Cornell,

Please find enclosed our recently revised Tennessee Pipeline Construction Company rate schedule for Coastal States Petrochemical. We have given our employees a cost of living increase of 40¢/per hour and have increased your rate 50¢/per hour to offset this increase. In order to maintain qualified personnel we found this increase necessary. We had not increased our rates in approximately two years.

At your convenience would you please review our schedule and if it does not meet your approval or if there are any questions we would greatly appreciate hearing from you.

We have enjoyed the privilege of doing business with you and look forward to doing so in the future.

Very truly yours,

~~T~~ENNESSEE PIPELINE CONSTRUCTION COMPANY, INC

Jimmy C. Adair
President

February 8, 1973

Mr. Bob Adams
Coastal States Petrochemical
P. O. Box 1501
Corpus Christi, Texas

Dear Mr. Adams,

Please find enclosed our proposed revisions of labor and equipment rate schedules for Petrochemical work.

The only revisions on labor are that first and second year pipefitter apprentice were deleted and third year apprentice were increased from \$4.50 an hour to \$4.78 an hour. Additional equipment was added to the equipment schedule.

The above revisions will be in effect subject to your approval. If you should have any questions please call me.

Very truly yours,

TENNESSEE PIPELINE CONSTRUCTION CO.

Jimmy C. Adair
President

September 22, 1975

Mr. R.J. Adams
P.O. Box 1501
Corpus Christi, Texas 78403

Dear Mr. Adams,

As of September 22, 1975, we would like to add two new classifications to our Labor Rate Schedule for Petrochemical work, which went into effect July 20, 1975.

The additions are; 3rd year Machinist Apprentice at \$6.20 per hour, and 4th year Machinist Apprentice at \$6.70 per hour. If you have any questions please feel free to call.

Very truly yours,

TENNESSEE PIPELINE CONSTRUCTION CO.

Subject Tennessee Pipeline Supplemental Employees

To All Concerned

Dep't. _____

From L. G. Diehl

Dep't Maintenance Manager

Effective immediately, the following changes will be made in the way we handle the time for certain Tennessee personnel. We currently charge the Tennessee dock crew directly to location code 76; in the future, we will also charge the Tennessee pumphouse helper directly to LC 76. We will charge the Tennessee bottle washer directly to LC 72. We will charge the three full time Tennessee warehouse helpers directly to LC 54.

Whenever additional or replacement personnel are needed for the above jobs, contact Ken Durham and the new men will be assigned and charged accordingly.

Tennessee should advise the appropriate supervisor if any of the subject personnel will be late or absent.

LC 72 - Supervisor - Clark Ellison
LC 76 - Supervisor - Harold Miller
LC 54 - Supervisor - Bob Littlefield

Attention: Mr. R. G. Hadden

Dear Mr. Haddon:

This is to advise that Tennessee Pipeline Construction Company will furnish Dock Standby Employees at Coastal States Petroleum Company Docks at the hourly rate of \$14.75 per hour. Since it is our understanding this position will be maintained around the clock no over time will be involved or charged.

Very truly yours,

TENNESSEE PIPELINE CONSTRUCTION COMPANY

July 26, 1982

To: Holders of Tennessee Pipeline Construction
Company Rate Schedules:

Attached are new Labor and Equipment Rate
Schedules that will become effective August 1, 1982.
Please note the following changes:

Change I. The overtime rate will
apply after ten (10) hours each
day, Saturdays, Sundays and
Holidays. In the past the over-
time rate was effective after
fifty (50) hours each week.

Change II. We added a small charge
to the equipment rate after ten
(10) hours each day - it was
necessary for us to do this to
help offset some of the operators
overtime.

Change III. We lowerer the price of
of our 15-Yd Dump Truck from \$35.00
per hour to \$30.00 per hour for the
first ten (10) hours each day.

If you have any questions concerning these
schedules please call me.

Very truly yours,

TENNESSEE PIPELINE CONSTRUCTION CO.

CED0006783

CONSTRUCTION CONTRACT

THIS AGREEMENT between COASTAL STATES PETROLEUM COMPANY, a corporation, with its principal office in the Petroleum Tower, whose mailing address is P. O. Drawer 521, City of Corpus Christi, Nueces County, Texas, hereinafter called "PETROCHEMICAL", * and Tennessee Pipeline Construction Co. whose mailing address is P. O. Box 9056 Corpus Christi, Texas 78408, hereinafter called "CONTRACTOR", provides for performance by CONTRACTOR of the work stipulated below on the terms and conditions set forth.

ARTICLE I - WORK TO BE PERFORMED

CONTRACTOR agrees to perform the work described below for PETROCHEMICAL in accordance with the specifications, plans, maps, and instructions as set forth in the attached Exhibit "A", incorporated hereto by the signatures of the parties identifying them as a part hereof. Additional detail as to location may be obtained by CONTRACTOR from maps in PETROCHEMICAL'S Engineering Department. All matters not covered in detail herein shall be performed in a manner consistent with the highest standards prevailing for such type of work in the petrochemical industry.

ARTICLE II - ALTERATIONS AND EXTRAS

PETROCHEMICAL, at any time during the progress of said work, shall have the right, without invalidating the agreement, bond, or the original plans, drawings and specifications to which they refer, to order extra work or make changes or alter, add to, or deduct from said work, but no such extra work or change shall be undertaken by CONTRACTOR unless a written order therefor is first given by PETROCHEMICAL to CONTRACTOR, incorporating therein the increase or decrease, as the same may be, in said agreement price for such extra work and/or changes and a revised time for the completion of the work under this Agreement (if a revised time be required). Upon receipt of such written order for extra work, changes or alterations, CONTRACTOR without delay shall do such extra work and/or make such changes or alterations, and work and materials shall be charged to PETROCHEMICAL'S account on a cost-plus basis as set forth in Article XIX below.

It will be noted in the attached Exhibit "A" that in certain instances specific materials, products, methods and services have been specified by brand or trade name partly for the purpose of establishing the effect or standard of quality desired. Upon the prior written approval of PETROCHEMICAL'S authorized representative, substitutions for such specifically named materials, products, methods or services may be made; provided the materials, products, methods or services desired to be substituted have been proven to PETROCHEMICAL'S authorized representative to provide the effect or standard of quality desired.

CONTRACTOR shall handle all materials so that they may be inspected by PETROCHEMICAL'S authorized representative and should any materials be found defective or in any way not in accordance with the contract, such material, without regard to the stage of completion, may be rejected by PETROCHEMICAL'S authorized representative and, if so rejected, shall be promptly removed from the premises by CONTRACTOR installing same and replaced at CONTRACTOR'S sole cost, risk and expense.

Re-examination of questioned work may be ordered by PETROCHEMICAL'S authorized representative, and if so ordered, the work must be uncovered by the CONTRACTOR. CONTRACTOR shall pay all costs of uncovering or replacing any questioned work unless the work was covered after the inspection and approval of PETROCHEMICAL'S authorized representative and, upon uncovering, is found to be in accordance with the contract documents, in which event such costs of uncovering shall be borne by PETROCHEMICAL.

ARTICLE III - MATERIALS AND PERSONNEL

CONTRACTOR shall furnish at its own expense constant supervision, competent foremen, and all bonds, permits, licenses, labor, tools, equipment, fuel, materials, machinery and transportation, together with all other items which may be necessary in the performance and completion of the work herein described, except such as may be specifically provided below to be furnished by PETROCHEMICAL. Unless otherwise specified all materials shall be new and of a grade and of a quality adequate for the required use, and all materials and equipment used in the construction of this project shall be adequately inspected and tested by CONTRACTOR in accordance with accepted standards at no expense to PETROCHEMICAL, unless otherwise specifically provided.

Before ordering any materials or doing any work, CONTRACTOR shall verify all measurements at the site and shall be responsible for the correctness of same. No extra charge or compensation will be allowed on account of any difference between actual dimensions and the measurements indicated on the Drawings. Any differences which may be found shall be submitted to PETROCHEMICAL'S authorized representative for his consideration and instructions before proceeding with the work.

Upon receipt of notice from PETROCHEMICAL'S authorized representative that any material placed in the Project or on the site is not of the quality specified or has been improperly placed, CONTRACTOR shall remove same from the site, or have same replaced as the case may be, within 48 hours after receipt of such notice, at CONTRACTOR'S sole cost, risk and expense.

ARTICLE IV - INDEPENDENT CONTRACTOR

In the performance of all work, CONTRACTOR is an independent contractor, with sole right to supervise, manage, control and direct the performance of the details. PETROCHEMICAL is interested only in the end result to be accomplished, but the end result must meet with the approval of PETROCHEMICAL, whose representatives shall be entitled to make such inspections from time to time as may be necessary to assure such results.

ARTICLE V - INSURANCE

CONTRACTOR agrees to carry adequate workmen's compensation and employers liability insurance covering all persons and employees connected with the work and also to carry comprehensive public liability insurance, and automotive public liability and property damage insurance in form and amounts subject to approval of PETROCHEMICAL, to protect against any claims for injuries or death to persons or damages to, or destruction of, property (including existing property of PETROCHEMICAL) sustained in the carrying out of said work, which insurance shall be written in the minimum amounts set forth in Article XIX below.

No work shall be commenced by CONTRACTOR until after the policy, or policies, evidencing the insurance coverage herein required, or certificates of such insurance providing that the insurer will give PETROCHEMICAL fifteen (15) days written notice prior to cancellation, material revision or intention to renew, have been filed with PETROCHEMICAL.

ARTICLE VI - RISK OF LOSS

Until written acceptance of the work has been delivered by PETROCHEMICAL to CONTRACTOR, as provided in Article XVII below, all risk of loss, injury or destruction by any cause other than acts or omissions of PETROCHEMICAL, shall be borne by CONTRACTOR. Responsibility of CONTRACTOR shall extend to materials and equipment, if any, that PETROCHEMICAL supplied for the job.

* Coastal States Petrochemical Co. has been changed to Coastal States Petroleum Co.

CONTRACTOR shall continuously maintain adequate protection of all the work performed under this CONTRACT as well as PETROCHEMICAL'S property adjacent thereto and shall protect PETROCHEMICAL'S property from injury or loss arising in connection with this CONTRACT. CONTRACTOR shall, at his own expense, replace or repair any such damage, injury or loss, and in the event CONTRACTOR fails to comply with this provision, PETROCHEMICAL may replace or repair any such damage at CONTRACTOR'S expense.

ARTICLE VII - NON ASSIGNABILITY

CONTRACTOR shall not assign this agreement or subcontract the whole or any part of said work without PETROCHEMICAL'S prior written consent. PETROCHEMICAL'S consent to any such assignment or subcontract shall not relieve CONTRACTOR, or CONTRACTOR'S surety, if there be a surety, of the primary responsibility or any liability for the full and faithful performance of this CONTRACT according to its terms and conditions.

ARTICLE VIII - OPERATIONS

CONTRACTOR shall commence actual operations immediately upon the execution hereof by PETROCHEMICAL and CONTRACTOR and shall prosecute them diligently and without interruption to completion in a good and workmanlike manner within the period of time set out in Article XIX.

ARTICLE IX - DEFAULT

Time and quality of work shall be of the essence of this Contract. If CONTRACTOR fails to begin, or having commenced, fails to prosecute the work in a good and workmanlike manner with reasonable diligence, PETROCHEMICAL may, at its option, upon three days' notice, in writing, to CONTRACTOR, terminate his work. In the event PETROCHEMICAL terminates this Contract then, without prejudice to any other remedy it may have, PETROCHEMICAL may take control of this work for the purpose of completing the same under the terms hereof, either by its own employees or by other independent CONTRACTORS. If PETROCHEMICAL takes control of this work, CONTRACTOR shall be entitled, upon PETROCHEMICAL'S completion of the work, to the difference between the contract price and the reasonable cost and expense incurred by PETROCHEMICAL in finishing said work. If such cost and expense should exceed the contract price, CONTRACTOR agrees to pay the excess to PETROCHEMICAL at Corpus Christi, Texas as liquidated damages agreed upon by the parties hereto in consideration of the difficulty of ascertaining the actual damages by other means. Provided, however, that if the completion of this Contract is delayed, by PETROCHEMICAL, by general strikes, acts of God, or causality, beyond the control of this CONTRACTOR, then, in such event, the time of completion of this Contract shall be extended for such additional time as shall be caused by such delay. Provided, however, that CONTRACTOR herein shall at the time of such delay, if any, demand of PETROCHEMICAL, in writing, such additional time within which to complete the performance of this Contract.

ARTICLE X - NOTICES

Notices hereunder shall be sent to the respective addresses of the parties, but all requests given CONTRACTOR'S foreman on the job by PETROCHEMICAL'S authorized representative, as designated in Article XIX, shall be conclusive. Oral communications will be sufficient except as to matters required to be in writing by this Contract.

ARTICLE XI - INDEMNITY

CONTRACTOR agrees to protect, indemnify and hold PETROCHEMICAL free and harmless from and against any and all claims, liabilities, demands and causes of action of every kind and character (including the amounts of judgments, penalties, interest, court costs and legal fees incurred by PETROCHEMICAL in defense of same) arising in favor of governmental agencies or third parties (including employees of either party) on account of taxes, claims, debts, personal injuries, death or damages to property, and without limitation by enumeration all other claims or demands of any kind, character or nature, arising out of or incidental to the work to be performed by CONTRACTOR.

ARTICLE XII - COMPLIANCE WITH AUTHORITY

CONTRACTOR agrees to comply with all laws, orders, rules or regulations of any governmental body, including without limitation, those pertaining to social security, safety, health, old age pension and unemployment compensation. Before final settlement, CONTRACTOR shall satisfy PETROCHEMICAL of the payment and release of all debts, taxes, liens, claims, charges and obligations arising by operation of law, or otherwise out of its performance of the work. CONTRACTOR hereby authorizes PETROCHEMICAL to deduct from any amount due CONTRACTOR (whether or not arising out of this agreement) all amounts which may be payable by CONTRACTOR to PETROCHEMICAL, and also, all amounts for which PETROCHEMICAL may become liable to a third party by reason of CONTRACTOR'S acts in performing, or failing to perform CONTRACTOR'S obligations under this agreement, and in the event that any claim is made by a third party, the amount or validity of which is disputed by CONTRACTOR, or any indebtedness shall exist which shall appear to be the basis for a claim of lien, PETROCHEMICAL may withhold from any payment due, without liability for interest because of such withholding, an amount sufficient to cover such claim. The failure of PETROCHEMICAL to exercise such right to deduct or to withhold shall not, however, affect the obligation of CONTRACTOR to protect PETROCHEMICAL as elsewhere provided herein.

ARTICLE XIII - INSPECTION OF BOOKS

PETROCHEMICAL shall have the right at all reasonable times to inspect and audit the books of CONTRACTOR pertaining to the work and services rendered hereunder where such inspection is reasonably related to such work and services and for a legitimate purpose which shall be stated to CONTRACTOR, provided, however, that CONTRACTOR shall have the right to exclude the following from inspection: Any trade secrets, formulas, processes and records of work for others.

ARTICLE XIV - PAYMENT

PETROCHEMICAL agrees to pay CONTRACTOR upon completion of the work, or from time to time as may be provided under Article XVII and XIX - 6, hereof, for the performance of this Contract, subject to the additions and deductions provided for herein the sum of money stated under Article XIX - 3 by its check or draft at Corpus Christi, Texas.

ARTICLE XV - BILLING, LABOR AND MATERIALS SEPARATELY

CONTRACTOR shall bill PETROCHEMICAL separately for charges for labor and charges for materials in order that PETROCHEMICAL may be the ultimate consumer of such materials and may utilize its exemption from the Texas sales and use tax for materials used in this project.

ARTICLE XVI - USE AND/OR OCCUPANCY BY PETROCHEMICAL PRIOR TO ACCEPTANCE

After written notice to CONTRACTOR, PETROCHEMICAL may use and or occupy, before final acceptance of the project, the whole or any part of the project for the purpose for which the project is intended, provided that such proposed use and or occupancy will not, in CONTRACTOR'S opinion, interfere with the completion of the work. Should CONTRACTOR consider that PETROCHEMICAL'S proposed use and or occupancy would interfere with the completion of the work, CONTRACTOR shall, within forty-eight hours after receiving notice of such intended use and or occupancy, notify PETROCHEMICAL thereof in writing. If CONTRACTOR does not timely object to PETROCHEMICAL'S proposed use and or occupancy, the same shall be considered to be with CONTRACTOR'S consent and not as an interference with the completion of such work.

ARTICLE XVII - ACCEPTANCE AND FINAL PAYMENT

Final payment shall be due thirty days after completion of the work, which period shall be computed from the date of issuance of certificate of completion, as provided below, excluding Saturdays, Sundays and legal holidays.

Upon receipt of written notice that the work is ready for final inspection and acceptance, PETROCHEMICAL'S authorized representative shall promptly make an inspection, and when he finds the work acceptable under the Contract and the Contract fully performed, he shall promptly issue a final certificate, over his own signature, stating that the work provided for in this Contract has been completed and is accepted by him under the terms and conditions thereof, and that the entire balance found to be due the CONTRACTOR, and noted in said final certificate, is due and payable.

Before issuance of final payment the CONTRACTOR shall submit evidence satisfactory to PETROCHEMICAL that all payrolls, material bills and other indebtedness connected with the work have been paid or otherwise satisfied.

If after the work has been substantially completed, full completion thereof is materially delayed through no fault of the CONTRACTOR, and PETROCHEMICAL so certifies, PETROCHEMICAL shall, without terminating the Contract, make payment of the balance due for that portion of the work fully completed and accepted. Such payment shall be made under the terms and conditions governing final payment, except that it shall not constitute a waiver of claims.

ARTICLE XVIII - INTERPRETATION

This Contract, together with the specifications, plans, maps and instructions attached or identified separately, constitute the entire agreement between the parties, and no other conversations, bids, memoranda, or other matter shall vary, alter, or interpret the terms hereof. The side head captions in this instrument are for convenience of the parties in identification of the several provisions and shall not constitute a part of the agreement nor be considered interpretive thereof. Failure of PETROCHEMICAL to exercise any option, right or privilege hereunder, or to demand compliance as to any obligation or covenant of CONTRACTOR shall not constitute a waiver of any such right, privilege or option, or of the strict performance thereof, unless waiver is expressly required in such event, or is evidenced by a properly executed instrument.

ARTICLE XIX -

1. COMMENCEMENT DATE: Immediately upon the execution of this Contract by PETROCHEMICAL and CONTRACTOR.
2. COMPLETION DATE: On or before the 4 day of August, 1980.
3. CONTRACT PRICE: Four Thousand-----
----- Dollars
(\$ 4,000.00) in installments as provided below.
4. DESCRIPTION AND LOCATION OF WORK: Tank 14 foundation work in Coastal
States Petroleum Company's south plant,
located on Cantwell Lane in Corpus
Christi, Texas.
5. PETROCHEMICAL'S AUTHORIZED REPRESENTATIVE: T. C. Covert
6. PAYMENT:

Progressive payments; on or before the 15th day of each month, PETROCHEMICAL will pay to CONTRACTOR the sum equal to ninety percent (90%) of the cost to PETROCHEMICAL of the labor performed, material suitably stored on the site and materials built into the project during the preceding calendar month based on estimates timely certified by CONTRACTOR and approved by PETROCHEMICAL'S authorized representative. In no event, however, shall PETROCHEMICAL pay to CONTRACTOR partial payments totalling more than ninety percent (90%) of the contract price until the final completion and acceptance of the project. Upon completion and acceptance of the project, PETROCHEMICAL'S authorized representative shall issue a "Certificate of Completion," and thirty (30) days thereafter, in accordance with V.A.T.S. Article 5469 and any amendments thereof, PETROCHEMICAL shall pay to CONTRACTOR the balance due on the contract price calculated in accordance with the terms and provisions of this contract.

~~7. PAYMENT, ALTERATIONS AND EXTRAS:~~

~~Alterations and extras as referenced under Article II above shall be billed to the account of PETROCHEMICAL on a cost-plus basis as set forth below:~~

- ~~1. A fee of _____ per cent (____%) shall be charged by CONTRACTOR on all gross payrolls, which shall include payroll taxes, insurance, tool fees, overhead and profit.~~
- ~~2. Construction equipment costs shall be accounted for at prevailing rates.~~
- ~~3. A fee of _____ per cent (____%) shall be charged by CONTRACTOR for procuring materials, as directed by PETROCHEMICAL, plus applicable taxes.~~
- ~~4. A fee of _____ per cent (____%) will be charged by CONTRACTOR on all subcontracts.~~

~~It is expressly agreed, however, that no fees for such alterations or extras will be charged to PETROCHEMICAL'S account without the prior written consent of PETROCHEMICAL'S authorized representative.~~

8. INSURANCE

CONTRACTOR shall file with PETROCHEMICAL evidence of insurance at the following minimum amounts:

1. Workmen's Compensation and/or all other Social insurance in accordance with the statutory requirements of the state, province or country having jurisdiction over CONTRACTOR'S employees who are engaged in the work, with Employer's Liability not less than \$100,000 each accident.

2. Comprehensive General Bodily Injury and Property Damage Liability insurance which shall include coverage for Contractual Liability and Contractor's Protective Liability. This insurance shall cover bodily injury to or death of persons and loss of or damage to property of third parties. Such insurance shall be provided in a Combined Single Limit not less than \$300,000 Bodily \$500,000 for any one accident.
 3. Automobile Bodily Injury and Property Damage Liability insurance which shall include coverage for all owned, non-owned and hired automotive vehicles used in the performance of the Work. This insurance shall be arranged in a Combined Single Limit not less than \$500,000 ea occurrence \$300,000 aggregate for any one accident.
 4. "All Risk" Ocean Marine Cargo insurance which shall include coverage for war, strikes, riots and civil commotion, as the latter perils may be insured during the term of the Work, covering any and all materials and equipment which may be in transit to the jobsite by wet marine bottoms, or by air transportation, and/or by connecting conveyances. Such insurance shall be maintained to cover limits at risk.
 5. "All Risk" Installation Floater insurance protecting the respective interest of PETROCHEMICAL and CONTRACTOR, covering any and all loss of or damage to the Work (except for the usual exclusions appearing in such policy form) while in transit (other than by wet marine or air transportation which is provided for in the paragraph next above), while at the jobsite awaiting erection, during erection and until transfer of care, custody and control of the Work to PETROCHEMICAL as hereinafter provided. This insurance shall be maintained at the value of the Work at risk. PETROCHEMICAL shall be included as an additional insured with respect to this contract only.
 6. CONTRACTOR'S "All Risks" insurance covering loss of or damage to construction equipment and tools whether owned or on bare rental to CONTRACTOR. Subrogation shall be waived against PETROCHEMICAL prior to cancellation of any policy.
9. INDEX OF SPECIFICATIONS, PLANS, MAPS AND INSTRUCTIONS SET FORTH IN EXHIBIT "A" AS ATTACHED HERETO AND MADE A PART HEREOF: (Please type)

CONSTRUCTION CONTRACT

JOB DESIGNATION

AFE 41335

THIS AGREEMENT between COASTAL STATES PETROLEUM COMPANY, a corporation, with its principal office in the Petroleum Tower, whose mailing address is P. O. Drawer 521, City of Corpus Christi, Nueces County, Texas, hereinafter called "PETROCHEMICAL", * and Tennessee Pipeline Construction Co., whose mailing address is P. O. Box 9056 Corpus Christi, Texas 78408, hereinafter called "CONTRACTOR", provides for performance by CONTRACTOR of the work stipulated below on the terms and conditions set forth.

ARTICLE I - WORK TO BE PERFORMED

CONTRACTOR agrees to perform the work described below for PETROCHEMICAL in accordance with the specifications, plans, maps, and instructions as set forth in the attached Exhibit "A", incorporated hereto by the signatures of the parties identifying them as a part hereof. Additional detail as to location may be obtained by CONTRACTOR from maps in PETROCHEMICAL'S Engineering Department. All matters not covered in detail herein shall be performed in a manner consistent with the highest standards prevailing for such type of work in the petrochemical industry.

ARTICLE II - ALTERATIONS AND EXTRAS

PETROCHEMICAL, at any time during the progress of said work, shall have the right, without invalidating the agreement, bond, or the original plans, drawings and specifications to which they refer, to order extra work or make changes or alter, add to, or deduct from said work, but no such extra work or change shall be undertaken by CONTRACTOR unless a written order therefor is first given by PETROCHEMICAL to CONTRACTOR, incorporating therein the increase or decrease, as the same may be, in said agreement price for such extra work and/or changes and a revised time for the completion of the work under this Agreement (if a revised time be required). Upon receipt of such written order for extra work, changes or alterations, CONTRACTOR without delay shall do such extra work and/or make such changes or alterations, and work and materials shall be charged to PETROCHEMICAL'S account as set forth in such written orders.

It will be noted in the attached Exhibit "A" that in certain instances specific materials, products, methods and services have been specified by brand or trade name partly for the purpose of establishing the effect or standard of quality desired. Upon the prior written approval of PETROCHEMICAL'S authorized representative, substitutions for such specifically named materials, products, methods or services may be made; provided the materials, products, methods or services desired to be substituted have been proven to PETROCHEMICAL'S authorized representative to provide the effect or standard of quality desired.

CONTRACTOR shall handle all materials so that they may be inspected by PETROCHEMICAL'S authorized representative and should any materials be found defective or in any way not in accordance with the contract, such material, without regard to the stage of completion, may be rejected by PETROCHEMICAL'S authorized representative and, if so rejected, shall be promptly removed from the premises by CONTRACTOR installing same and replaced at CONTRACTOR'S sole cost, risk and expense.

Re-examination of questioned work may be ordered by PETROCHEMICAL'S authorized representative, and if so ordered, the work must be uncovered by the CONTRACTOR. CONTRACTOR shall pay all costs of uncovering or replacing any questioned work unless the work was covered after the inspection and approval of PETROCHEMICAL'S authorized representative and, upon uncovering, is found to be in accordance with the contract documents, in which event such costs of uncovering shall be borne by PETROCHEMICAL.

ARTICLE III - MATERIALS AND PERSONNEL

CONTRACTOR shall furnish at its own expense constant supervision, competent foremen, and all bonds, permits, licenses, labor, tools, equipment, fuel, materials, machinery and transportation, together with all other items which may be necessary in the performance and completion of the work herein described, except such as may be specifically provided below to be furnished by PETROCHEMICAL. Unless otherwise specified all materials shall be new and of a grade and of a quality adequate for the required use; and all materials and equipment used in the construction of this project shall be adequately inspected and tested by CONTRACTOR in accordance with accepted standards at no expense to PETROCHEMICAL, unless otherwise specifically provided.

Before ordering any materials or doing any work, CONTRACTOR shall verify all measurements at the site and shall be responsible for the correctness of same. No extra charge or compensation will be allowed on account of any difference between actual dimensions and the measurements indicated on the Drawings. Any differences which may be found shall be submitted to PETROCHEMICAL'S authorized representative for his consideration and instructions before proceeding with the work.

Upon receipt of notice from PETROCHEMICAL'S authorized representative that any material placed in the Project or on the site is not of the quality specified or has been improperly placed, CONTRACTOR shall remove same from the site, or have same replaced as the case may be, within 48 hours after receipt of such notice, at CONTRACTOR'S sole cost, risk and expense.

ARTICLE IV - INDEPENDENT CONTRACTOR

In the performance of all work, CONTRACTOR is an independent contractor, with sole right to supervise, manage, control and direct the performance of the details. PETROCHEMICAL is interested only in the end result to be accomplished, but the end result must meet with the approval of PETROCHEMICAL, whose representatives shall be entitled to make such inspections from time to time as may be necessary to assure such results.

ARTICLE V - INSURANCE

CONTRACTOR agrees to carry adequate workmen's compensation and employers liability insurance covering all persons and employees connected with the work and also to carry comprehensive public liability insurance, and automotive public liability and property damage insurance in form and amounts subject to approval of PETROCHEMICAL, to protect against any claims for injuries or death to persons or damages to, or destruction of, property (including existing property of PETROCHEMICAL) sustained in the carrying out of said work, which insurance shall be written in the minimum amounts set forth in Article XIX below.

No work shall be commenced by CONTRACTOR until after the policy, or policies, evidencing the insurance coverage herein required, or, certificates of such insurance providing that the insurer will give PETROCHEMICAL fifteen (15) days written notice prior to cancellation, material revision or intention to renew, have been filed with PETROCHEMICAL.

ARTICLE VI - RISK OF LOSS

Until written acceptance of the work has been delivered by PETROCHEMICAL to CONTRACTOR, as provided in Article XVII below, all risk of loss, injury or destruction by any cause other than acts or omissions of PETROCHEMICAL, shall be borne by CONTRACTOR. Responsibility of CONTRACTOR shall extend to materials and equipment, if any, that PETROCHEMICAL supplied for the job.

* Coastal States Petrochemical Co. has been changed to Coastal States Petroleum Co.

CONTRACTOR shall continuously maintain adequate protection of all the work performed under this CONTRACT as well as PETROCHEMICAL'S property adjacent thereto and shall protect PETROCHEMICAL'S property from injury or loss arising in connection with this CONTRACT. CONTRACTOR shall, at his own expense, replace or repair any such damage, injury or loss, and in the event CONTRACTOR fails to comply with this provision, PETROCHEMICAL may replace or repair any such damage at CONTRACTOR'S expense.

ARTICLE VII - NON ASSIGNABILITY

CONTRACTOR shall not assign this agreement or subcontract the whole or any part of said work without PETROCHEMICAL'S prior written consent. PETROCHEMICAL'S consent to any such assignment or subcontract shall not relieve CONTRACTOR, or CONTRACTOR'S surety, if there be a surety, of the primary responsibility or any liability for the full and faithful performance of this CONTRACT according to its terms and conditions.

ARTICLE VIII - OPERATIONS

CONTRACTOR shall commence actual operations immediately upon the execution hereof by PETROCHEMICAL and CONTRACTOR and shall prosecute them diligently and without interruption to completion in a good and workmanlike manner within the period of time set out in Article XIX.

ARTICLE IX - DEFAULT

Time and quality of work shall be of the essence of this Contract. If CONTRACTOR fails to begin, or having commenced, fails to prosecute the work in a good and workmanlike manner with reasonable diligence, PETROCHEMICAL may, at its option, upon three days' notice, in writing, to CONTRACTOR, terminate his work. In the event PETROCHEMICAL terminates this Contract then, without prejudice to any other remedy it may have, PETROCHEMICAL may take control of this work for the purpose of completing the same under the terms hereof, either by its own employees or by other independent CONTRACTORS. If PETROCHEMICAL takes control of this work, CONTRACTOR shall be entitled, upon PETROCHEMICAL'S completion of the work, to the difference between the contract price and the reasonable cost and expense incurred by PETROCHEMICAL in finishing said work. If such cost and expense should exceed the contract price, CONTRACTOR agrees to pay the excess to PETROCHEMICAL at Corpus Christi, Texas as liquidated damages agreed upon by the parties hereto in consideration of the difficulty of ascertaining the actual damages by other means. Provided, however, that if the completion of this Contract is delayed, by PETROCHEMICAL, by general strikes, acts of God, or causality, beyond the control of this CONTRACTOR, then, in such event, the time of completion of this Contract shall be extended for such additional time as shall be caused by such delay. Provided, however, that CONTRACTOR herein shall at the time of such delay, if any, demand of PETROCHEMICAL, in writing, such additional time within which to complete the performance of this Contract.

ARTICLE X - NOTICES

Notices hereunder shall be sent to the respective addresses of the parties, but all requests given CONTRACTOR'S foreman on the job by PETROCHEMICAL'S authorized representative, as designated in Article XIX, shall be conclusive. Oral communications will be sufficient except as to matters required to be in writing by this Contract.

ARTICLE XI - INDEMNITY

CONTRACTOR agrees to protect, indemnify and hold PETROCHEMICAL free and harmless from and against any and all claims, liabilities, demands and causes of action of every kind and character (including the amounts of judgments, penalties, interest, court costs and legal fees incurred by PETROCHEMICAL in defense of same) arising in favor of governmental agencies or third parties (including employees of either party) on account of taxes, claims, debts, personal injuries, death or damages to property, and without limitation by enumeration all other claims or demands of any kind, character or nature, arising out of or incidental to the work to be performed by CONTRACTOR.

ARTICLE XII - COMPLIANCE WITH AUTHORITY

CONTRACTOR agrees to comply with all laws, orders, rules or regulations of any governmental body, including without limitation, those pertaining to social security, safety, health, old age pension and unemployment compensation. Before final settlement, CONTRACTOR shall satisfy PETROCHEMICAL of the payment and release of all debts, taxes, liens, claims, charges and obligations arising by operation of law, or otherwise out of its performance of the work. CONTRACTOR hereby authorizes PETROCHEMICAL to deduct from any amount due CONTRACTOR (whether or not arising out of this agreement) all amounts which may be payable by CONTRACTOR to PETROCHEMICAL, and also, all amounts for which PETROCHEMICAL may become liable to a third party by reason of CONTRACTOR'S acts in performing, or failing to perform CONTRACTOR'S obligations under this agreement, and in the event that any claim is made by a third party, the amount or validity of which is disputed by CONTRACTOR, or any indebtedness shall exist which shall appear to be the basis for a claim of lien, PETROCHEMICAL may withhold from any payment due, without liability for interest because of such withholding, an amount sufficient to cover such claim. The failure of PETROCHEMICAL to exercise such right to deduct or to withhold shall not, however, affect the obligation of CONTRACTOR to protect PETROCHEMICAL as elsewhere provided herein.

ARTICLE XIII - INSPECTION OF BOOKS

PETROCHEMICAL shall have the right at all reasonable times to inspect and audit the books of CONTRACTOR pertaining to the work and services rendered hereunder where such inspection is reasonably related to such work and services and for a legitimate purpose which shall be stated to CONTRACTOR; provided, however, that CONTRACTOR shall have the right to exclude the following from inspection: Any trade secrets, formulas, processes and records of work for others.

ARTICLE XIV - PAYMENT

PETROCHEMICAL agrees to pay CONTRACTOR upon completion of the work, or from time to time as may be provided under Article XVII and XIX - 6, hereof, for the performance of this Contract, subject to the additions and deductions provided for herein the sum of money stated under Article XIX - 3 by its check or draft at Corpus Christi, Texas.

ARTICLE XV - BILLING, LABOR AND MATERIALS SEPARATELY

CONTRACTOR shall bill PETROCHEMICAL separately for charges for labor and charges for materials in order that PETROCHEMICAL may be the ultimate consumer of such materials and may utilize its exemption from the Texas sales and use tax for materials used in this project.

ARTICLE XVI - USE AND/OR OCCUPANCY BY PETROCHEMICAL PRIOR TO ACCEPTANCE

After written notice to CONTRACTOR, PETROCHEMICAL may use and or occupy, before final acceptance of the project, the whole or any part of the project for the purpose for which the project is intended, provided that such proposed use and/or occupancy will not, in CONTRACTOR'S opinion, interfere with the completion of the work. Should CONTRACTOR consider that PETROCHEMICAL'S proposed use and or occupancy would interfere with the completion of the work, CONTRACTOR shall, within forty-eight hours after receiving notice of such intended use and or occupancy, notify PETROCHEMICAL thereof in writing. If CONTRACTOR does not timely object to PETROCHEMICAL'S proposed use and/or occupancy, the same shall be considered to be with CONTRACTOR'S consent and not as an interference with the completion of such work.

CONTRACTOR shall continuously maintain adequate protection of all the work performed under this CONTRACT as well as PETROCHEMICAL'S property adjacent thereto and shall protect PETROCHEMICAL'S property from injury or loss arising in connection with this CONTRACT. CONTRACTOR shall, at his own expense, replace or repair any such damage, injury or loss, and, in the event CONTRACTOR fails to comply with this provision, PETROCHEMICAL may replace or repair any such damage at CONTRACTOR'S expense.

ARTICLE VII - NON-ASSIGNABILITY

CONTRACTOR shall not assign this agreement or subcontract the whole or any part of said work without PETROCHEMICAL'S prior written consent. PETROCHEMICAL'S consent to any such assignment or subcontract shall not relieve CONTRACTOR, or CONTRACTOR'S surety, if there be a surety, of the primary responsibility or any liability for the full and faithful performance of this CONTRACT according to its terms and conditions.

ARTICLE VIII - OPERATIONS

CONTRACTOR shall commence actual operations immediately upon the execution hereof by PETROCHEMICAL and CONTRACTOR and shall prosecute them diligently and without interruption to completion in a good and workmanlike manner within the period of time set out in Article XIX.

ARTICLE IX - DEFAULT

Time and quality of work shall be of the essence of this Contract. If CONTRACTOR fails to begin, or having commenced, fails to prosecute the work in a good and workmanlike manner with reasonable diligence, PETROCHEMICAL may, at its option, upon three days' notice, in writing, to CONTRACTOR, terminate his work. In the event PETROCHEMICAL terminates this Contract then, without prejudice to any other remedy it may have, PETROCHEMICAL may take control of this work for the purpose of completing the same under the terms hereof, either by its own employees or by other independent CONTRACTORS. If PETROCHEMICAL takes control of this work, CONTRACTOR shall be entitled, upon PETROCHEMICAL'S completion of the work, to the difference between the contract price and the reasonable cost and expense incurred by PETROCHEMICAL in finishing said work. If such cost and expense should exceed the contract price, CONTRACTOR agrees to pay the excess to PETROCHEMICAL or Corpus Christi, Texas as liquidated damages agreed upon by the parties hereto in consideration of the difficulty of ascertaining the actual damages by other means. Provided, however, that if the completion of this Contract is delayed, by PETROCHEMICAL, by general strikes, acts of God, or causality, beyond the control of this CONTRACTOR, then, in such event, the time of completion of this Contract shall be extended for such additional time as shall be caused by such delay. Provided, however, that CONTRACTOR herein shall at the time of such delay, if any, demand of PETROCHEMICAL, in writing, such additional time within which to complete the performance of this Contract.

ARTICLE X - NOTICES

Notices hereunder shall be sent to the respective addresses of the parties, but all requests given CONTRACTOR'S foreman on the job by PETROCHEMICAL'S authorized representative, as designated in Article XIX, shall be conclusive. Oral communications will be sufficient except as to matters required to be in writing by this Contract.

ARTICLE XI - INDEMNITY

CONTRACTOR agrees to protect, indemnify and hold PETROCHEMICAL free and harmless from and against any and all claims, liabilities, demands and causes of action of every kind and character (including the amounts of judgments, penalties, interest, court costs and legal fees incurred by PETROCHEMICAL in defense of same) arising in favor of governmental agencies or third parties (including employees of either party) on account of taxes, claims, debts, personal injuries, death or damages to property, and without limitation by enumeration all other claims or demands of any kind, character or nature, arising out of or incidental to the work to be performed by CONTRACTOR.

ARTICLE XII - COMPLIANCE WITH AUTHORITY

CONTRACTOR agrees to comply with all laws, orders, rules or regulations of any governmental body, including without limitation, those pertaining to social security, safety, health, old age pension and unemployment compensation. Before final settlement, CONTRACTOR shall satisfy PETROCHEMICAL of the payment and release of all debts, taxes, liens, claims, charges and obligations arising by operation of law, or otherwise out of its performance of the work. CONTRACTOR hereby authorizes PETROCHEMICAL to deduct from any amount due CONTRACTOR (whether or not arising out of this agreement) all amounts which may be payable by CONTRACTOR to PETROCHEMICAL, and also, all amounts for which PETROCHEMICAL may become liable to a third party by reason of CONTRACTOR'S acts in performing, or failing to perform CONTRACTOR'S obligations under this agreement, and in the event that any claim is made by a third party, the amount or validity of which is disputed by CONTRACTOR, or any indebtedness shall exist which shall appear to be the basis for a claim of lien, PETROCHEMICAL may withhold from any payment due, without liability for interest because of such withholding, an amount sufficient to cover such claim. The failure of PETROCHEMICAL to exercise such right to deduct or to withhold shall not, however, affect the obligation of CONTRACTOR to protect PETROCHEMICAL as elsewhere provided herein.

ARTICLE XIII - INSPECTION OF BOOKS

PETROCHEMICAL shall have the right at all reasonable times to inspect and audit the books of CONTRACTOR pertaining to the work and services rendered hereunder where such inspection is reasonably related to such work and services and for a legitimate purpose which shall be stated to CONTRACTOR; provided, however, that CONTRACTOR shall have the right to exclude the following from inspection: Any trade secrets, formulas, processes and records of work for others.

ARTICLE XIV - PAYMENT

PETROCHEMICAL agrees to pay CONTRACTOR upon completion of the work, or from time to time as may be provided under Article XVII and XIX - 6, hereof, for the performance of this Contract, subject to the additions and deductions provided for herein the sum of money stated under Article XIX - 3 by its check or draft at Corpus Christi, Texas.

ARTICLE XV - BILLING, LABOR AND MATERIALS SEPARATELY

CONTRACTOR shall bill PETROCHEMICAL separately for charges for labor and charges for materials in order that PETROCHEMICAL may be the ultimate consumer of such materials and may utilize its exemption from the Texas sales and use tax for materials used in this project.

ARTICLE XVI - USE AND/OR OCCUPANCY BY PETROCHEMICAL PRIOR TO ACCEPTANCE

After written notice to CONTRACTOR, PETROCHEMICAL may use and/or occupy, before final acceptance of the project, the whole or any part of the project for the purpose for which the project is intended, provided that such proposed use and/or occupancy will not, in CONTRACTOR'S opinion, interfere with the completion of the work. Should CONTRACTOR consider that PETROCHEMICAL'S proposed use and/or occupancy would interfere with the completion of the work, CONTRACTOR shall, within forty-eight hours after receiving notice of such intended use and/or occupancy, notify PETROCHEMICAL thereof in writing. If CONTRACTOR does not timely object to PETROCHEMICAL'S proposed use and/or occupancy, the same shall be considered to be with CONTRACTOR'S consent and not as an interference with the completion of such work.

ARTICLE XVII - ACCEPTANCE FINAL PAYMENT

Final payment shall be due thirty days after completion of the work, which period shall be computed from the date of issuance of certificate of completion, as provided below, excluding Saturdays, Sundays and legal holidays.

Upon receipt of written notice that the work is ready for final inspection and acceptance, PETROCHEMICAL'S authorized representative shall promptly make an inspection, and when he finds the work acceptable under the Contract and the Contract fully performed, he shall promptly issue a final certificate, over his own signature, stating that the work provided for in this Contract has been completed and is accepted by him under the terms and conditions thereof, and that the entire balance found to be due the CONTRACTOR, and noted in said final certificate, is due and payable.

Before issuance of final payment the CONTRACTOR shall submit evidence satisfactory to PETROCHEMICAL that all payrolls, material bills and other indebtedness connected with the work have been paid or otherwise satisfied.

If after the work has been substantially completed, full completion thereof is materially delayed through no fault of the CONTRACTOR, and PETROCHEMICAL so certifies, PETROCHEMICAL shall, without terminating the Contract, make payment of the balance due for that portion of the work fully completed and accepted. Such payment shall be made under the terms and conditions governing final payment, except that it shall not constitute a waiver of claims.

ARTICLE XVIII - INTERPRETATION

This Contract, together with the specifications, plans, maps and instructions attached or identified separately, constitute the entire agreement between the parties, and no other conversations, bids, memoranda, or other matter shall vary, alter, or interpret the terms hereof. The side head captions in this instrument are for convenience of the parties in identification of the several provisions and shall not constitute a part of the agreement nor be considered interpretive thereof. Failure of PETROCHEMICAL to exercise any option, right or privilege hereunder, or to demand compliance as to any obligation or covenant of CONTRACTOR shall not constitute a waiver of any such right, privilege or option, or of the strict performance thereof, unless waiver is expressly required in such event, or is evidenced by a properly executed instrument.

ARTICLE XIX -

1. COMMENCEMENT DATE: Immediately upon the execution of this Contract by PETROCHEMICAL and CONTRACTOR.
2. COMPLETION DATE: On or before the _____ day of _____, 19_____.
3. CONTRACT PRICE: Seventeen Thousand and no/100
_____ Dollars
(\$ 17,000) in installments as provided below.
4. DESCRIPTION AND LOCATION OF WORK: Provide labor, equipment, services and incidentals to install Black Oil Transfer pump and to fabricate and install all piping in Coastal States Petroleum Co. South Tank farm located on Cantwell Lane Corpus Christi, Texas
5. PETROCHEMICAL'S AUTHORIZED REPRESENTATIVE: T. C. Covert
6. PAYMENT:

Progressive payments, on or before the 15th day of each month, PETROCHEMICAL will pay to CONTRACTOR the sum equal to ninety percent (90%) of the cost to PETROCHEMICAL of the labor performed, material suitably stored on the site and materials built into the project during the preceding calendar month based on estimates timely certified by CONTRACTOR and approved by PETROCHEMICAL'S authorized representative. In no event, however, shall PETROCHEMICAL pay to CONTRACTOR partial payments totalling more than ninety percent (90%) of the contract price until the final completion and acceptance of the project. Upon completion and acceptance of the project, PETROCHEMICAL'S authorized representative shall issue a "Certificate of Completion," and thirty (30) days thereafter, in accordance with V.A.T.S. Article 5469 and any amendments thereof, PETROCHEMICAL shall pay to CONTRACTOR the balance due on the contract price calculated in accordance with the terms and provisions of this contract.

~~7. PAYMENT, ALTERATIONS AND EXTRAS:~~

~~Alterations and extras as referenced under Article II above shall be billed to the account of PETROCHEMICAL on a cost-plus basis as set forth below:~~

- ~~1. A fee of _____ per cent (____%) shall be charged by CONTRACTOR on all gross payrolls, which will include payroll taxes, insurance, tool fees, overhead and profit.~~
- ~~2. Construction equipment costs shall be accounted for at prevailing rates.~~
- ~~3. A fee of _____ per cent (____%) shall be charged by CONTRACTOR for procuring materials, as directed by PETROCHEMICAL, plus applicable taxes.~~
- ~~4. A fee of _____ per cent (____%) will be charged by CONTRACTOR on all subcontracts.~~

~~It is expressly agreed, however, that no fees for such alterations or extras will be charged to PETROCHEMICAL'S account without the prior written consent of PETROCHEMICAL'S authorized representative.~~

8. INSURANCE

CONTRACTOR shall file with PETROCHEMICAL evidence of insurance at the following minimum amounts:

1. Workmen's Compensation and/or all other Social insurance in accordance with the statutory requirements of the state, province or country having jurisdiction over CONTRACTOR'S employees who are engaged in the work, with Employer's Liability not less than \$100,000 each accident.

2. Comprehensive General Bodily Injury and Property Damage Liability insurance which shall include coverage for Contractual Liability and Contractor's Protective Liability. This insurance shall cover bodily injury to or death of persons and loss of or damage to property of third parties. Such insurance shall be provided in a Combined Single Limit not less than \$300,000 Bodily
\$100,000 Prop. for any one accident.
 3. Automobile Bodily Injury and Property Damage Liability insurance which shall include coverage for all owned, non-owned and hired automotive vehicles used in the performance of the Work. This insurance shall be arranged in a Combined Single Limit not less than \$300,000 Bodily
\$100,000 Prop. for any one accident.
 4. "All Risk" Ocean Marine Cargo insurance which shall include coverage for war, strikes, riots and civil commotion, as the latter perils may be insured during the term of the Work, covering any and all materials and equipment which may be in transit to the jobsite by wet marine bottoms, or by air transportation, and/or by connecting conveyances. Such insurance shall be maintained to cover limits at risk.
 5. "All Risk" Installation Floater insurance protecting the respective interest of PETROCHEMICAL and CONTRACTOR, covering any and all loss of or damage to the Work (except for the usual exclusions appearing in such policy form) while in transit (other than by wet marine or air transportation which is provided for in the paragraph next above), while at the jobsite awaiting erection, during erection and until transfer of care, custody and control of the Work to PETROCHEMICAL as hereinafter provided. This insurance shall be maintained at the value of the Work at risk. PETROCHEMICAL shall be included as an additional insured with respect to this contract only.
 6. CONTRACTOR'S "All Risks" insurance covering loss of or damage to construction equipment and tools whether owned or on bare rental to CONTRACTOR. Subrogation shall be waived against PETROCHEMICAL prior to cancellation of any policy.
9. INDEX OF SPECIFICATIONS, PLANS, MAPS AND INSTRUCTIONS SET FORTH IN EXHIBIT "A" AS ATTACHED HERETO AND MADE A PART HEREOF: (Please type)
1. Scope of Work
 2. Drawing Index
 3. General Project Specifications
 4. Piping Specifications
 5. General Condition of Inquiries Governing Contractors
 6. Safety and Security Regulations Governing Contractors
 7. Invitation to Bid to Tennessee Pipeline Construction Company
4-28-80
 8. Bid proposal letter from Tennessee Pipeline Construction
Company - 6-10-80

IN WITNESS WHEREOF the parties hereto have caused this instrument to be executed this 25th day of June 19 80.

COASTAL STATES PETROCHEMICAL COMPANY

CONTINUING MAINTENANCE OR CONSTRUCTION CONTRACT

WHEREAS, COASTAL STATES PETROCHEMICAL COMPANY, a Texas corporation, with principal offices located in Houston, Harris County, Texas, hereinafter called "COMPANY" is desirous of entering into a contract whereby COMPANY shall have the right, from time to time during the term hereof, to obtain needed fabrication, stress relieving, inspection services, maintenance, or construction work on or in connection with its Refinery and associated facilities located within COMPANY's operating area, which work includes, but is not limited to, construction, fabrication, stress relieving, repairs, relocations, alterations, taps, and minor installations, hereinafter called the "work;" and

WHEREAS, the undersigned contractor, hereinafter called "CONTRACTOR," represents that he is presently engaged in the business of providing such work, as an independent contractor, and that he is knowledgeable, experienced, and has competent personnel and equipment available to perform such work, and is desirous of performing and furnishing said work required by COMPANY, from time to time during the term hereof, within the said area.

NOW, THEREFORE, in consideration of the premises and in consideration of the sum of One Dollar (\$1.00) in hand paid by COMPANY to CONTRACTOR, the receipt and sufficiency of which is hereby acknowledged, the parties hereto do hereby mutually agree as follows:

1. CONTRACTOR agrees to have available at all times during the term hereof, competent and adequate labor and equipment of the type listed and shown on the attached Wage Rate Schedules and Equipment Rental Schedules, to perform work hereunder from time to time, when requested by COMPANY. In connection with the work to be performed hereunder, COMPANY agrees to advise CONTRACTOR of each specific job of work that COMPANY desires to have CONTRACTOR perform and to provide CONTRACTOR with any drawings, plan, instructions and/or specifications that COMPANY may have prepared in connection therewith, with any such drawings, plans, instructions and/or specifications so provided or furnished by COMPANY to be a part hereof, the same as if copied verbatim herein.
2. CONTRACTOR and COMPANY agree that no work will be performed by CONTRACTOR hereunder unless COMPANY, by and through one of its authorized representatives, specifically requests that CONTRACTOR perform such work.
3. CONTRACTOR agrees that nothing stated herein shall be considered in any manner, to give CONTRACTOR the exclusive right to perform inspection services, stress relieving, x-ray, maintenance, or construction work for COMPANY within the COMPANY's operating area or within any area, but that the intent and purpose of this agreement is for COMPANY to have an independent contractor available to perform such work when needed, from time to time, with the prices, terms and conditions thereof being agreed to in advance, with COMPANY being free to perform such work either by itself or by and through others.
4. COMPANY agrees to pay and CONTRACTOR agrees to accept, as total consideration to be paid to CONTRACTOR hereunder, the total amount of money arrived at by multiplying the actual number of work hours actually performed by CONTRACTOR by the appropriate item, both labor and equipment, on the Equipment List and Rental Schedule and Wage Rate Schedule attached hereto and made a part hereof. In connection with the said Schedules attached hereto, CONTRACTOR agrees that the prices set out therein cover all profit, overhead and all other considerations that CONTRACTOR shall be entitled to receive in connection with the work.

CED0006797

The consideration shall be payable to CONTRACTOR as follows:

a. Upon the undertaking of any specific job, such as turnarounds and major capital projects, CONTRACTOR agrees to prepare and submit to COMPANY on a daily basis, an itemized invoice properly listing and setting forth the number of hours actually performed, both labor and equipment, and, at the end of the specific job, to submit proper proof to COMPANY that CONTRACTOR has paid all bills and claims for labor, material, equipment and supplies and that there are no liens or claims outstanding that could become liens, or any outstanding claims for damages as mentioned in Paragraph 6. COMPANY agrees, subject to the right to make any necessary corrections and subject to satisfying itself that there are no such outstanding bills or claims, to remit final payment for each specific project promptly upon receipt thereof.

b. For general plant maintenance and miscellaneous small projects of whatever nature, weekly invoices will be submitted as in Paragraph 4a above.

It shall be the responsibility of COMPANY to notify CONTRACTOR as soon as possible the type of project that is undertaken under 4a or 4b above.

CONTRACTOR shall coordinate with COMPANY's Planning Office on the maintenance and submitting of daily time cards for each man and each piece of CONTRACTOR's equipment in COMPANY's plant for whatever project. CONTRACTOR will also submit daily time sheets to the Planning Office, signed by CONTRACTOR's Foreman and a COMPANY Representative.

5. CONTRACTOR agrees, in the performance of this contract, that he, whether such CONTRACTOR be a corporation or not, is acting and will act at all times as an independent contractor. All personnel utilized by CONTRACTOR in connection with this contract shall be the employees of CONTRACTOR and subject to CONTRACTOR's sole and exclusive supervision, direction and control, with it being distinctly understood that COMPANY shall in no wise be associated with or connected with the details or the method and manner employed to perform the work, but that COMPANY is interested in the end result to be accomplished and the final performance of the objectives of the project specified herein. COMPANY being interested in the end result, shall have the right at all times to halt the work for such periods only as may be reasonably necessary for COMPANY to determine whether or not all of the work being performed complies with this contract and the end objective. CONTRACTOR shall be solely liable and responsible for all withholding, salaries, wages, insurance, benefits and all other similar obligations relating to CONTRACTOR's personnel and labor.

6. CONTRACTOR agrees, in the performance of each and every part of this contract and all of the work to be performed that CONTRACTOR shall be solely liable for all overhead, labor, equipment, expenses, materials and supplies in connection therewith and CONTRACTOR agrees to hold COMPANY harmless of, from and against and to indemnify COMPANY from any claims for any of the aforesaid items from any person asserting same. Further, CONTRACTOR agrees to indemnify, defend and hold COMPANY harmless of, from and against all claims for damage of any nature whatsoever, including but not limited to, bodily injury, death or property damage, arising out of or connected with the work to be performed hereunder.

7. CONTRACTOR shall maintain, at all times during the term hereof, sufficient insurance satisfactory to COMPANY, and as may be required by law to protect CONTRACTOR and COMPANY from and against all claims, demands, and causes of action arising by reason of any work performed by CONTRACTOR, which insurance shall be written as specified in Exhibit "A" attached.

8. CONTRACTOR shall not assign this contract or subcontract the whole or any part of said work without COMPANY's prior written consent. COMPANY's consent to any assignment or subcontract shall not relieve CONTRACTOR, or CONTRACTOR's surety, if there be a surety, of any liability for the full and faithful performance of this contract according to its terms and conditions.

9. COMPANY shall have the right at all reasonable times to inspect and audit the books of CONTRACTOR pertaining to the work and to this contract; provided, however, that CONTRACTOR shall have right to exclude any trade secrets, formulas or process from such inspection.

10. CONTRACTOR hereby authorizes COMPANY to deduct from any amount payable to CONTRACTOR (whether or not arising out of this contract) all amounts which may be payable by CONTRACTOR to COMPANY, and also all amounts for which COMPANY may become liable to third parties by reason of CONTRACTOR's act in performing or failing to perform CONTRACTOR's obligations under this contract or growing out of this contract, and in the event that any claim is made by third party, or any indebtedness shall exist which shall appear to be the basis for a claim or lien, COMPANY may withhold from any payment due, without liability because of such withholding, an amount sufficient to cover such claim. The failure of COMPANY to exercise such right to deduct or to withhold shall not, however, affect the obligation of CONTRACTOR to protect COMPANY as elsewhere provided herein.

11. In the event CONTRACTOR is prevented from continuing or completing any given work hereunder because of an act of God or public enemy, strike, lockout, boycott, picketing, riot, insurrection, or any governmental order, rule or regulation, or any ordinance, or failure to delay on the part of COMPANY, then, notwithstanding anything herein contained to the contrary CONTRACTOR shall not be liable to COMPANY in damages on account thereof, but COMPANY shall have the right at its election to cancel any work, labor, or equipment furnished by CONTRACTOR in connection with any given project or job begun under this contract, by paying to CONTRACTOR, for work done prior to the time of the exercise of such election. If COMPANY does not elect to cancel such work under this contract, then the time for completing the said project shall be extended for such time as CONTRACTOR is so prevented from completing said work. Further, in the event COMPANY is prevented or hindered in the continuance of any such work because of any act of God or public enemy, strike, lockout, boycott, picketing, riot, insurrection, or any other reason over which COMPANY has no reasonable control, then COMPANY may suspend or cancel any of the work being performed hereunder in connection with such project or job without liability. Any payment made by COMPANY under this paragraph shall be subject to and in accordance with the last paragraph of Paragraph 4.

12. If any work provided for by this contract was commenced by CONTRACTOR under oral agreement prior to the execution of this contract, this written contract shall apply thereto in the same manner as if made before said work was commenced.

13. Anything to the contrary notwithstanding, it is expressly understood and agreed by and between COMPANY and CONTRACTOR that COMPANY shall have the right, in its sole and uncontrolled discretion, to discontinue, in whole or in part, any project where CONTRACTOR may be performing work, by providing notice to CONTRACTOR; whereupon COMPANY's only obligation shall be to pay CONTRACTOR for all work performed prior to the date of termination. Such payment to be made after CONTRACTOR has provided proof that there are no outstanding claims for death, injury or property damage and/or for labor, material, equipment and supplies that could result in a lien.

14. If applicable, CONTRACTOR agrees to comply with Executive Order 11246 which pertains to fair employment practices, and such rules, regulations and orders thereunder.

15. It is understood and agreed that COMPANY may require, as a condition precedent to any work being begun hereunder, that CONTRACTOR provide a Performance Bond and/or a Payment Bond with the understanding that if a Bond is required, that the same will be with a surety or bonding company satisfactory to COMPANY and in a form and with provisions satisfactory to COMPANY, but that COMPANY will reimburse CONTRACTOR for the actual premium cost thereof, less any rebate or discount.

16. CONTRACTOR agrees that the work will be performed in compliance with all applicable governmental laws, rules and regulations and applicable requirements, if any.

17. In addition to the consideration set out in Paragraph 4 hereof, COMPANY and CONTRACTOR agree that in the event COMPANY specifically requests CONTRACTOR to furnish any pipe, fittings, parts or other permanent materials or subcontract services which will become a part of the Refinery or other facilities of COMPANY (excluding, however, welding rods and similar consumable construction materials), then COMPANY agrees to pay and CONTRACTOR agrees to accept as full and total consideration therefor, CONTRACTOR's actual cost of such materials plus Ten Per Cent (10%). No such permanent materials will be supplied by CONTRACTOR unless specifically requested by COMPANY and signed for by a COMPANY Representative upon delivery to COMPANY premises.

18. The term of this agreement shall be for one year, and may be extended thereafter by mutual agreement of COMPANY and CONTRACTOR. The CONTRACTOR may, as need arises, submit new or revised Equipment Lists and Rental Schedules and/or Wage Rate Schedules on a timely basis, avoiding retroactive increases whenever possible. If the new rate schedules are deemed acceptable by the COMPANY, the new or revised schedule will be attached to and made part of this agreement as of the effective date of the new rate schedules, and will supersede and replace all previous rate schedules. In the event that the COMPANY does not agree to or accept new or revised rate schedules, then this contract may be terminated in its entirety without further liability.

19. Any notices and/or invoices provided for in this agreement shall be mailed to:

COMPANY: Coastal States Petrochemical Company
P. O. Box 109
Corpus Christi, Texas 78403
Attn: Field Administrative Supervisor

CONTRACTOR: Tennessee Pipeline Construction Company
P. O. Box 9056
Corpus Christi, Texas 78408

EXECUTED on this the 23rd day of April, 19 79.

COMPANY:

COASTAL STATES PETROCHEMICAL COMPANY

By [Signature]

CONTRACTOR:

TENNESSEE PIPELINE
CONSTRUCTION COMPANY

By [Signature]
Title: President

EXHIBIT "A"

- I. Contractor shall, during the progress of the work, carry, at its own expense, on forms and in reliable insurance companies selected by Contractor and acceptable to Company, and authorized to do business in the state or area in which the work is to be performed hereunder, the following minimum insurance coverage:
 - A. Worker's Compensation including Occupational Disease Insurance as required by law and Employer's Liability Insurance with limits of not less than \$100,000 for injuries to or death of more than one person resulting from any accident or occupational disease covering all workplaces involved in this Contract.
 - B. Comprehensive General Liability Insurance, including Premises/Operations, Contractual, Products/Completed Operations, and Contractor's Contingent Liability with respect to subcontractors, with Bodily Injury Liability limits of \$500,000 for injury or death resulting from any one occurrence, and Property Damage Liability limit of not less than \$300,000 per occurrence, including damage to Company's property.
 - C. Automobile Liability Insurance, including all non-owned, hired, rented, or owned equipment, with Bodily Injury Liability limit of not less than \$100,000 for injuries to or death of any one person and not less than \$300,000 for injuries to or death of more than one person resulting from any one occurrence, and Property Damage Liability limit of not less than \$100,000 per occurrence.
 - D. Umbrella Liability Insurance in excess of the above primary limits to a combined single limit for bodily injury and property damage of not less than \$2,000,000.
 - E. All policies providing coverage hereunder shall contain provisions that no cancellation or material changes in the policies shall become effective except on thirty (30) days' written notice thereof to Company, through the Contract Administrator who originated the contract.

- II. All of the above described insurance policies shall contain provisions that the insurance companies will have no right of recovery or subrogation against Coastal Company, its divisions, affiliates, or subsidiary companies, it being the intention of the parties that the insurance so effected shall protect all parties, and the Contractor's carrier shall be liable for any and all losses covered by the above-described insurance.
- III. Any and all deductibles in the above-described insurance policies shall be assumed by, for the account of, and at Contractor's sole risk.
- IV. Before work is actually commenced under the terms of this Contract, Contractor shall secure and deliver to Company certificates evidencing that insurance coverages of the types and limits provided for above are in full force and effect. If requested by Company, Contractor shall furnish to Company Contract Administrator certified copies of all such policies.
- V. When requested by Company, Contractor shall furnish, or cause to be furnished to the Contract Administrator in the manner above provided, certificates of insurance coverage for each subcontractor in minimum amounts deemed necessary by Contractor to cover the work of the particular subcontractor. Should insurance requirements for a subcontractor be less than the minimum requirements for Contractor, as set out above, Company may, at its option require Contractor to secure such minimum coverage.
- VI. Failure to secure the insurance coverages, or the failure to comply fully with any of the insurance provisions of this Contract, or the failure to secure such endorsements on the policies as may be necessary to carry out the terms and provisions of this Contract, shall in no way act to relieve Contractor from the obligations of this Contract, anything in this Contract to the contrary notwithstanding. In the event that liability for any loss or damage be denied by the underwriter or underwriters for any other reason, or if Contractor fails to maintain any of the insurance herein required, Contractor will hold harmless, defend and indemnify Company against all losses,

claims, demands, and expenses, including attorney's fees, which would otherwise be covered by said insurance.

VII. In the event Company should desire any other type of insurance during the construction period, such insurance shall be provided by Contractor with such firm or firms as Company may direct and Company shall be named on the policy as an additional assured, and the Contract Price shall be adjusted by an amount equal to the cost of such insurance.

VIII. Notwithstanding any other provision of this Contract, the insurance protection afforded Company under this Contract shall inure to the benefit of Company and all of its subsidiary and affiliated companies; and when so requested by Company, Contractor shall furnish certificates of insurance showing such subsidiary and affiliated companies as insured.

TEXAS WAIVER OF OUR RIGHT TO RECOVER FROM OTHERS ENDORSEMENT

This endorsement changes the policy to which it is attached effective on the inception date of the policy unless a different date is indicated below.

(The following "attaching clause" need be completed only when this endorsement is issued subsequent to preparation of the policy.)

This endorsement, effective on **4-17-85** (DATE) at 12:01 A.M. standard time, forms a part of

Policy No. **3CL 969 192 00** Endorsement No.
of the **Lumbermens Mutual Casualty Co.** (NAME OF INSURANCE COMPANY)

issued to **Tennessee Pipeline Const. Co. Inc. etal**

M. Fayeno Feinglas
Authorized Representative

This endorsement applies only to the insurance provided by the policy because Texas is shown in Item 3.A. of the Information Page.

We have the right to recover our payments from anyone liable for an injury covered by this policy. We will not enforce our right against the person or organization named in the Schedule, but this waiver applies only with respect to bodily injury arising out of the operations described in the Schedule where you are required by a written contract to obtain this waiver from us.

This endorsement shall not operate directly or indirectly to benefit anyone not named in the Schedule.

The premium for this endorsement is shown in the Schedule.

Schedule

1. ☒ Specific Waiver

Name of person or organization:
Coastal States Petroleum Co.
P.O. Box 521
Corpus Christi TX 78469

☐ Blanket Waiver

Any person or organization for whom the Named Insured has agreed by written contract to furnish this waiver.

2. Operations:

Oil Pipeline Const. & D - 6233

3. Premium

The premium charge for this endorsement shall be 5 percent of the premium developed on payroll in connection with work performed for the above person(s) or organization(s) arising out of the operations described.

4. Minimum Premium: **35.00**

5. Advance Premium: **35.00 included**

End. #11
