Dear Mr 5.1.2e

We hope this email finds you well.

Please allow me to contact you again on behalf of the **Alliance for Telomer Chemistry Stewardship (ATCS)**, the industry alliance of the largest producers of C6 fluorotelomer-based chemistry, regarding the **upcoming REACH restriction on all PFAS**.

As you are aware, the ATCS participated in the [Call for Evidence](#) launched by Germany, The Netherlands, Denmark and Sweden, and supported by Norway. The ATCS would be grateful for the opportunity to **discuss the forthcoming restriction as well as the role that C6 fluorotelomer chemistry plays in many strategic sectors in Europe**, particularly in providing the required levels of water- and oil-repellence, barrier properties and unmatched surface-active capabilities.

We would like to propose to hold the meeting from May onwards, and we will be happy to suggest various dates/times.

In the meantime, we remain at your disposal would you need additional information.

Thank you very much for your consideration.

Kind regards,

5.1.2e

Dear Ms 5.1.2e

We are still working with the five countries in line with our planning of last year.

We aim to submit the dossier 1st half 2022 (probably at the end of the first half).

Kind regards,

5.1.2e

Dear Mr 5.1.2e

Please allow me to come back to you on behalf of the **Alliance for Telomer Chemistry Stewardship** regarding the **REACH Restriction on all PFAS**.

We were wondering whether you be able to comment on the timeline of the upcoming restriction.

We thank you in advance for your consideration and look forward to hearing from you.

Dear 5.1.2e

I would like to inform you that in the follow-up phase of the CfE, the REACH competent authorities of the five Member States, Germany, the Netherlands, Norway, Sweden and Denmark, will be hosting a Webinar on 29 October with assistance of ECHA in order to explain the REACH restriction process and status of the proposed PFAS restriction. (please see <https://echa.europa.eu/-/restriction-of-per-and-polyfluoroalkyl-substances-pfas-under-reach>)

The webinar will be published on ECHA's home page on 29 October at 13:30 CET, GMT +1 and further instructions for joining a live Q&A session where experts from the 5 Member States will be answering your questions until 15:30 CET will be available there as well. You are welcome to send in any questions you might already have in advance of the meeting till 19 October to

5.1.2e @baw.bund.de.

Dear [REDACTED] 5.1.2e

I have made a short report of the meeting we had yesterday, because we should be crystal clear about the contacts in the project between Member State authorities and stakeholders.

I will share this report with the other Member States to inform them.

Could you please provide the names of all participants and please add/correct the text were applicable?

Kind regards,

Dear 5.1.2e

I have received your meeting request and I think it is helpful to have a short phone call so you can give some more explanation and I can indicate the NL activities and process on both dossiers. And we can discuss if and when it is appropriate to have a meeting.

Are you available for a call this week?

Kind regards,

Onderwerp: ATCS - Meeting request to discuss PFHxA restriction proposal and CfE all PFAS

Dear 5.1.2e

We hope this email finds you well.

We are contacting you on behalf of the **Alliance for Telomer Chemistry Stewardship**, an industry alliance of the largest producers of C6 fluorotelomer-based chemistry, representing AGC, Daikin, Dynax Corporation, and Johnson Controls. The purpose of this email is to request a meeting/call to discuss **the [proposal for a restriction of PFHxA, its salts and related substances under the REACH Regulation, as submitted by Germany in December 2019](#)**.

As you are most likely aware, ECHA recently launched its [consultation on the restriction proposal](#). ATCS has already submitted two responses to the consultation in May and July (see attached). We will prepare a third submission with a detailed list of additional derogation needs, which will be submitted before the **deadline for final contributions on 25th September**.

The ATCS does not believe that PFHxA meets the criteria for restriction under REACH. We are also concerned about the **insufficient analysis provided in the dossier with respect to derogation needs related to C6 fluorotelomer chemistry**. As you are most likely aware, C6 fluorotelomer chemistry plays a **key role in many strategic sectors in Europe**, particularly in providing the required levels of water- and oil-repellence, barrier properties and unmatched surface-active capabilities.

In addition to the restriction of PFHxA, we would be grateful for the opportunity to also discuss **the forthcoming Restriction on all PFAS**. The ATCS has participated in the [Call for Evidence](#) launched by Germany, The Netherlands, Denmark and Sweden, and supported by Norway (see also attached).

We would like to propose to hold the meeting from September onwards. If you agree, we will be happy to propose various dates/times.

So long as the COVID-19 situation persists, we propose to hold the meeting in a web-based format or as a conference call.

In the meantime, we remain at your disposal would you need additional information.

Thank you very much for your consideration.

Kind regards,

5.1.2e
