INTER-OFFICE
CORRESPONDENCE

Dr. Robert A. Kehoe

Dear Dr. Kehoe:

We are attaching a copy of a letter received
from our Chicago office.

Nothing has been done on this as we believe
you will want to handle this personally.

Very truly yours,

J. C. TAYLOR

Mr. J. C. Taylor

Attention: Mr. E. M. Walter

Dear Ed:

On July 10th we received a letter from our Mr. Smith
that read as follows:

"Recently while contacting Mr. Gurken of the Monroe
Cooperative Oil Company he advised me that one of his
service station attendants, Clifford Shanabarger, of
141 Roessler Street, Monroe, Michigan, has been ill
with a nervous trouble of some kind for several weeks
and that Dr. Nehrer of Monroe, Michigan, has diagnosed
his trouble as lead poisoning and is treating him in
line with this diagnosis. This man is making no complaint
to the Monroe Cooperative Oil Company and very likely
nothing will develop as a result. I did not contact
either Mr. Shanabarger or the doctor, and minimized the
diagnosis of this doctor as much as possible to Mr. Gurken."

"I am sending you this information for your files in case
something develops in the future."

I do not think it advisable to make any contacts on this
matter as it now stands, and this is merely for your information.

Very truly yours,

(signed) R. L. JORDAN
