Hello,

This is Sophie Lim from Tour World Inc. Our company is a tour agency that handles government official group from South Korea.

We have a group coming next month from Ministry of Environment, South Korea, and they would like to have a meeting with a company that acts and follows Toxic Substance Control Act in New York. They want to learn how to the businesses follow the government policy and report and related with it in order to protect environment from Toxic in NY.

I have contacted to some companies, but it is hard to reach with the department that is related to the Toxic Reduction program.

Can you please recommend a company that reports and follows the government Toxic reduction program? We can contact to arrange the meeting regarding to the program.

Please help us to find a company to have a meeting with the government official for better protection of earth in South Korea.

Please see attached official letter from Ministry of Environment and delegation list, and response me as soon as possible.

Thank you so much~~~
