This may be of interest or value.

The AIA/NA "spent" about \$50,000 with
K & E on this and arranged for a lot
of presentations. The full proceedings
are available - let me know if you want
them.

Royal Commission on Matters of
Health and Safety Arising from
the Use of Asbestos in Ontario

Dear Chairman Dupre:

The Asbestos Information Association/North America has appreciated the opportunity to participate in the proceedings of the Royal Commission. In order to assist the Commissioners as they move toward the drafting of a final report, our counsel have prepared the enclosed summary of the evidence presented to the Commission on health, monitoring and regulatory issues.

The summary includes occasional references to asbestos literature not formally in the Commission's record as testimony or exhibits. Most of this literature is no doubt in your library; but, if there are any publications cited that are not readily available, we would be glad to supply them to the Commission.

I am enclosing copies of the summary for
the active interested parties in Toronto and ask that
you please deliver them.

Respectfully yours,

B.J. Pigg
