BOB BOWMAN

Hal Granowold, Charlie Smith, company men, and James Howlett, Packing House Manager for Limonette, talk it over on the job.

Lemons and Job No. 1218

GA

CONSTRUCTION IS NOW WELL UNDER WAY ON THE

LIMONETTE JOB NO. 1218. Bechtel Corporation

is constructing an extensive enlargement of a

lemon packing house approximately 40 feet by

220 feet. The work, located at Santa Paula,

California, will involve alterations and mod-

ernization of other existing facilities belonging

to the Limonette Company, an affiliate of the

Trague interests.

The Limonette Ranch is the largest well-

known growing ranch in the world.

Products grown there are distributed under

their own labels. The packing houses, under

the management of Mr. James Howlett, handle

the fruit grown on neighboring ranches.

The employees of the ranch are provided with

complete housing facilities, church, schools,

stores, commissary, garden plots, and recrea-

tional facilities. Some of the present employ-

ees were born on the well-kept citrus and vol-

ume groves along the valley floor of the

south of Santa Paula and up the sloping hills

side to the north. Irrigation is furnished by

a ranch-owned irrigation system and pumping

plant.

The work at the Limonette job is progressing

on schedule under the supervision of

Mr. B. Buckhamer, Educational Institution

and job coordination are being handled

from the Los Angeles office by G. J. Smith
