Dr. W. H. Claussen
California Research Corporation
200 Bush Street
San Francisco 4, Calif.

Dear Bill:

There are attached two papers concerning lead which may be of interest. As you will note, the paper by Dr. Kehoe is based on his address given at the California Club, Los Angeles, and the paper by Hirschler et al was presented at the recent ACS meeting in Atlantic City.

In reference to the letter from Mr. J. J. Wisdall (Australia) which Dr. Scott read at the recent PAC VI and III meeting in Pasadena, the reaction here of the bizarre character of the communication was similar to that to the committee members. Unless more can be learned of the business connections of Mr. Wisdall, it appears that little could be gained by a reply.

Very truly yours,

C. M. Gambrill
