

1 Q And let's assume that for this purpose, that
2 you would need to put on new brake linings and shoes.

3 A You take your work sheet to the stock
4 department, and they would issue you the parts that
5 you would need.

6 Q And when you returned to that vehicle that
7 you were working on, how would you go about, at that
8 time, putting on the new brake lining?

9 A Well, you would use the same process as you
10 would taking them off.

11 Q And when you say the same process, how would
12 you get them back on?

13 A Well, you would have to determine which
14 vehicle, because some of the vehicles had to be
15 riveted onto the brake shoes.

16 Q And when you say it may have to be riveted
17 onto the brake shoe, what would you have to do?

18 A What we would have to do is cut the old
19 rivets out of there, and get the new lining, rivet
20 those on and then fit them into the drums.

21 Q And in doing that, did that process create
