

1 loss from such cutting operations to a bag-type
2 collector, dust collector.

3 Q Was this a vacuum-type of dust control?

4 A Yes.

5 Q And you were at -- if I understand your
6 testimony correctly, you were at the Berlin, New
7 Jersey, plant from --

8 A 1947 through the start of the Sayreville
9 plant which, I believe, was late 1948 or early 1949.

10 Q At that point did the nature of your work
11 and duties change at that point?

12 A At what point?

13 Q I am sorry. After the startup of the
14 Sayreville plant.

15 A Yes. Upon startup of the Sayreville plant,
16 I moved from the Berlin operation to the Sayreville
17 operation and my duties changed from that of research
18 and development engineer to that of initially plant
19 chemist.

20 Subsequent to having operated as plant
21 chemist, I also became supervisor of the batching
