PITTSBURGH 13, PA.

October 27, 1944

Dr. F. A. Kehoe,
Kettering Laboratory
University of Cincinnati,
Cincinnati, O.

Dear Dr. Kehoe:

With reference to Jack Bloomfield's memorandum of August 2, 1944, on the subject of Donald E. Cummings memorial lecture for the 1945 meeting of the AIIHA, I suggest Dr. Alice Hamilton. As the "grand old lady" of industrial hygiene, she not only holds a unique position but is also a good speaker and may not be available many years longer.

Very truly yours,

W.C.L. Hemeon

W.C.L. Hemeon
Ventilation Engineer

WCLH:D

*Acknowledge with thanks, stating that
as the 1st I learned of Pittsburgh meeting Nov. 15th*
