HOYT
Plain Impression Lead

We use only selected materials, which run uniform, in the manufacture of our plain impression lead. It renders *the softest and smoothest surface obtainable.*

We also manufacture coated impression lead in any size that you may desire. Our facilities enable us to make quick deliveries of all kinds of metals used in the electrotyping trade.

Our line of products includes electrotype metal, tint plates, electro cases, base plates, crawl-proof sheet lead for lining plating tanks, linotype metal, monotype metal and stereotype metal.
