Flat-Tone

wall effects at a few dollars' cost

Washable—economical

Investigate S-W Flat-Tone by all means. It is the most economical finish you can place on your walls:

First—because redecorating costs can be saved year after year by merely washing Flat-Tone walls with soap and water.

Second—because its wonderful body enables you to cover more square feet of wall per quart. Yet it costs no more than other wall paints.

Flat-Tone is ideal for producing stippled walls and rich, costly-looking Spanish leather effects. Easy to apply without leaving unsightly streaks. And its rich, velvety tints are of inimitable beauty.

Our big new Decorative Book shows many of the handsome wall effects you can get with this modern, washable wall paint at very moderate cost. Come in and inspect it today.

There is no bargain like good quality. Take paint, for instance. Sherwin-Williams make the world's best paints. Yet, their paints actually cost less per job because each gallon covers far more surface. Every one of these Friday and Saturday Suggestions is of guaranteed quality.
