

VCOR - Ethylene

Safety.

Block Valve - R.D. - R.V.

Leak outside

Metering -

meters will have to be sealed or
lead lines insulated.

If sealed use a heavy immiscible
fluid.

If measuring a vapor set meter above orifice
run.

Gauging

Boiling in the gauge glass is a problem.

We use a non-reactive float.

Pump seals -

Check with Carl Duhon (T.C.)
