Post of the American Legion, aided by the local chamber of commerce, the Lions club, the Rotary club, the 20-30 club and the various railroad men's organizations of Tracy, are working out a program that if successful will give Tracy the biggest per capita representation of any town in the San Joaquin valley at the Oakdale show".

"Oakdale is to be congratulated for having constructed a modern airport," added Johnson "and the people of Tracy can best show their appreciation of this achievement by attending the dedication ceremonies. An excellent program has been announced and the two days will be filled with plenty of thrills and action."

Gulf Stream Change Seen by Sea Captain

NEW YORK, April 22.—Long Island is unexcited over the possibility of being covered with waving palm trees. Captain Sir Arthur Rostron, commander of the transatlantic liner Berengaria, is inclined to think that the westward movement of the gulf stream will make the island tropical in nature. Dr. Frank L. Bryant, Brooklin geologist, doubts that the course of the stream is changing.

AH! Pain Stops

Ingrown Nail Turns Right Out!

A few drops of "Outgro" in the crevice of the ingrowing nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh, and the nail turns naturally outward almost over night.

"Outgro" is a harmless antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.

A BATHROOM in the modern mode AT LITTLE COST

Don't think that you can't have a modern bathroom, just because your fixtures are white...

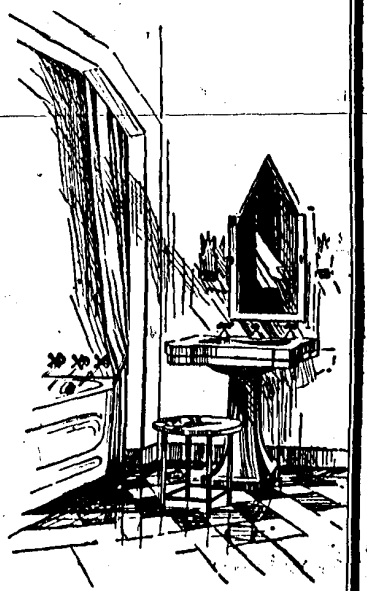

Transform it into the modern mode with colorful Fuller paints and enamels. Some of the most colorful bathrooms are actually built, like this, around white fixtures.

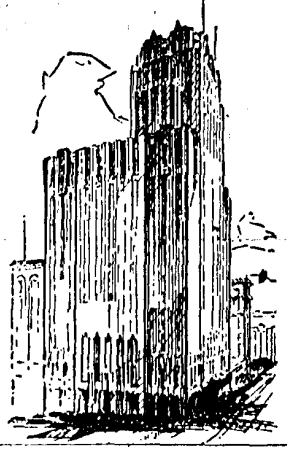

What a difference a little painting makes in the appearance of a home! And the cost is really so small. Call in a good painter right away. But be sure to ask him, first, if he uses Fuller Paints.

Always *insist* on Fuller Paints.. then you can be sure of pleasing, lasting results. Perfected and tested under the most severe conditions, in the extensive Fuller laboratories... Fuller Paints have always been the choice of the West's leading painters, decorators, architects and industrial users.

Look for the Fuller name on the can ... to be sure. Sold throughout the West ... by Fuller Paint Stores, and by Fuller dealers everywhere.

Among the products used were W. P. Fuller & Co's Pioneer White Lead and Fullerglo interior enamel.

One raw material alone must pass 25 tests...

Maybe you've wondered why some paints are sold at prices below those of Fuller products. You'd soon know, if you could spend a day in one of the Fuller laboratories.

FULLERGLO

For *interior walls, ceilings, woodwork, and furniture*... Fullerglo is an ideal *semi-gloss enamel* ... resulting in a pleasing, smooth, satin-like texture ... which is easily washed with soap and *water*. It has remarkable wearing quality. Resists abrasion ... and will not chip. Fullerglo is available in a wide variety of modern colors and pastel tints ... at Fuller dealers everywhere, and at Fuller Paint Stores. *Insist* that your painter use it.

DECORET

Because of its *quick-drying* qualities, which make it such a joy to work with, Decoret has been extremely popular for painting furniture, decorating picture frames, baby carriages, toys, etc. It is smooth-flowing, remarkably durable, and is available in a wide variety of colors ... at Fuller Paint Stores, and at Fuller dealers everywhere.

Only the very best raw materials are used, to begin with. In Pure Prepared, for exterior woodwork ... one of the materials used is Linseed Oil. And it must be *absolutely pure*.

Further ... to assure you of the most durable and attractive mixed paint that modern science can produce ... Fuller chemists subject that Linseed Oil to 25 detailed tests ... *it's even tasted*. All this ... before we even *start* to make paint out of it. And ... this is only *one* of the several materials used in Fuller Prepared Paint.

This care that W. P. Fuller & Co. takes in preparing its paints, is the reason why Fuller Paints are so beautiful in texture, and long-lasting ... and why so-called cheap paints, are "cheap".
