PPG INDUSTRIES, INC.

INTEROFFICE CORRESPONDENCE
LAKE CHARLES, LA

TO: Jim Wyche/Bob Pfost DATE: May 13, 1993
Steve Korzeniewski FROM: Howard Duhon *hd*
SUBJECT: Vinyl Makeup Class

Attached is the list of your employees (Highlighted) that will need Vinyl Chloride Training during the latter part of this year. The objective was to instruct all employees in need during the February classes. Because most of those in your SPU'S highlighted went during the latter part of 1992, they did not attend in 1993.

We presently have 19 employees delinquent that will be trained on Thursday, May 20, at 7:30 am. in Training Room B/C. Their attendance is mandatory (your SPU'S do not have any in that category, but will at the end of the year). For your employees who will need training during the latter part of 93, now is the time to send them. If you cannot send them now, the lab will have to conduct a separate session during the last quarter to catch all those who will become delinquent in November and December. Your attachments illustrate the day your employees will become due.

The objective is to train all employees at once to avoid duplication at another part of the year. The target for 1994 Vinyl Training is to train all in need in February, 94.
