Dr. Robert A. Kehoe,
Kettering Laboratory of Applied Physiology,
University of Cincinnati,
Cincinnati, Ohio.

Dear Doctor Kehoe:-

Many thanks for your prompt response to my letter concerning the collection of specimens for lead determination. After reading your letter, I think that we should have determinations on the blood and urine. If you will send me the containers I will obtain the specimens according to the directions sent me and get them in the mail promptly to you.

I am,

Thanking you for your cooperation,

Cordially yours,

Llewellyn Sale.
