MERCHANDISE DEPARTMENT

GENERAL ELECTRIC COMPANY

1285 Boston Ave.
BRIDGEPORT, CONN.

[illegible]

Doctor Alice Hamilton
Harvard University
School of Public Health
Boston, Mass.

Dear Doctor Hamilton:

With reference to [illegible] January 29th we have a department where [illegible] for felting this material on wires which [illegible] the middle of 1932 and because it was in [illegible] condition it was run without an exhaust [illegible] we installed an exhaust system and although [illegible] worked to our entire satisfaction, the [illegible] very good at the present time and the [illegible] the exhaust is contemplating additional [illegible] further improve the operating conditions.

There are only about [illegible] men working in this department on a single shift, which is our present condition, but there are times when [illegible] two and three shifts, each shift requiring [illegible] number of people.

It seems to me that we had one [illegible] in the early days of our operation of this department who had some indications of trouble from asbestos dust but I do not think it was serious and the man is no longer working for us.

We will be very glad to have you visit us and inspect the conditions of this department whenever you find it desirable or convenient to do so.

Very truly yours,

W Stewart Clark

[illegible] MANAGER
