

December 6, 1948

Dr. W. B. Hutchinson,
Willard Storage Battery Company,
246 E. 131st Street,
Cleveland 1, Ohio.

Dear Doctor Hutchinson: Re: [REDACTED]

A blood smear supplied to us was examined, but the result was reported to me after my letter went to you. No stippled erythrocytes were found in examining fifty fields. This is of no great consequence, but it tends to confirm my feeling that this man is not suffering from lead intoxication at this time.

Cordially yours,

Robert A. Kehoe, M. D.
