

1 I gather from your response that I had it
2 backwards?

3 A Yes.

4 Q You went to Wales and then you went to the
5 University of Vermont?

6 A Here we go.

7 Q Okay.

8 A In 1972 I was recruited by Dr. Craighead to
9 go to the University of Vermont and to study lung
10 disease using an electron microscope as my research
11 tool, so I learned the electron research and electron
12 microscopy when they were just starting to be
13 developed.

14 In 1974 during the middle of my stay, this
15 famous pathologist Dr. Wagner came and we sat and
16 looked at slides together of human disease, and he
17 asked me if I would be interested in using the
18 electron microscope to study these animal models that
19 he was developing in Wales at the time. Great, sounds
20 like a great idea, and off we go to Wales in 1974.

21 I came back and started to think about how
