OBJECTIONS TO PLAINTIFF'S DEFINITIONS

1. Defendant objects to Plaintiff's definition of the terms "Defendant", "you", "your", and "your company". To the extent the terms can be read to refer to Defendant's attorneys, any interrogatory or request for production utilizing any of these terms necessarily invades the work product privilege in violation of Rule 192.5 of the Texas Rules of Civil Procedure and Rule 503 of the Texas Rules of Evidence. To the extent the terms are defined to include predecessors, divisions, subsidiaries, foreign subsidiaries, foreign subsidiaries of predecessors, and/or affiliates, as well as present and former officers, directors, agents, employees and other persons acting or purporting to act on behalf of the corporate defendant, any interrogatory or request for production utilizing these terms is so overly broad, and over burdensome as to make any request or interrogatory utilizing the term virtually impossible to answer. Further, to the extent the definition is defined to include any merged, consolidated, or acquired predecessors, divisions, subsidiaries, foreign subsidiaries, foreign subsidiaries of predecessors, and/or affiliates, any interrogatory or request for production utilizing any of these terms is necessarily overly broad, over burdensome, and calls for material which is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence. Defendant further objects to Plaintiff's apparent attempt to place upon Defendant the burden to seek information from former officers, directors, agents and employees over whom Defendant no longer has dominion or control. Any interrogatory or request for production utilizing any of these terms is a "fishing expedition" in violation of Texas law as concerns discovery.
2. Defendant objects to Plaintiff's definition of the terms "document", "documents", "written materials", or "printed matter" as the definition of those terms renders any interrogatory or request for production utilizing any of these terms overly broad, over burdensome, harassing, and reduces any such interrogatory or request for production to a "fishing expedition" in violation of Texas law concerning discovery. Defendant further objects to the definition of these terms as calling for the production of material or information which is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence. Defendant further objects to the definition of these terms to the extent it purports to include an obligation to locate and produce information or documentation which is no longer in the possession or control of this Defendant or from entities who are not parties to this cause of action.
3. Defendant objects to Plaintiff's definition of the words "meeting" or "meetings" as any interrogatory or request for production utilizing those terms is overly broad, and over burdensome in that it purports to require documentation or information concerning any casual or coincidental meeting.
4. Defendant objects to Plaintiff's definition of the term "years at issue" as the definition assumes that Plaintiff worked on the premises of Defendant for the entire period reflected in the definition, which is denied. Any request for admission or production utilizing this term is overly broad, burdensome and calls for information which is neither relevant nor reasonably calculated to lead to the discovery of admissible evidence.

5. Defendant objects to the stated definition of the terms "products containing asbestos fiber", "asbestos containing products" and "asbestos products" on the grounds it is overly broad, vague and not limited to the matters made the basis of this lawsuit and therefore, seeks disclosure of information and/or the production of documentation wholly irrelevant to any material issue in this case and not reasonably calculated to lead to the discovery of admissible evidence.
