Please see below from the Florida Department of Transportation.

Thanks,

Governor's Press Office

---

The Florida of Department of Transportation is in the process of completing the closure of Snapper Creek service plaza on the Turnpike (near the Don Shula in Miami)

DOT will be closing the Pompano and West Palm Service plazas at Noon in order to allow our staff to return to their homes in time for the 3:00 PM local curfew.

The remaining plazas will be closed from south to north as conditions worsen. DOT will close each in time to secure equipment and evacuate our staff prior to the arrival of TS force winds.
