

1 the specification of conditions for asbestos abatement
2 work, that is, the removal or other treatment of
3 asbestos in buildings in order to make it safe.

4 We do straightforward industrial hygiene
5 work, that is, evaluation of exposures to lead and
6 solvents and dusts of one sort or another in various
7 kinds of industries.

8 We do work and evaluation of air pollution
9 emissions with certain limits. We don't do, for
10 instance, stack sampling on big power plants and that
11 sort of thing, but do look at emissions from
12 laboratories and semiconductive industries and other
13 places like that.

14 Q We have marked as Plaintiff's Wood 20 a copy
15 of your resume that I hope is updated to April of
16 1996, and I will hand that to the Clerk.

17 (Whereupon, Plaintiff's Wood Exhibit Number
18 20 was marked for identification.)

19 BY MR. HOFFMAN:

20 Q Dr. Fowler, is this a most recent version of
21 your resume listing your background and qualifications
