Mr. John Warren

I would like to personally thank you for your actions during last Friday's fire in the VCM pumphouse. Despite imminent danger to yourself, you managed to report the fire, stop the fuel source and extinguish the fire single-handedly. By your actions, you prevented a very serious situation from spreading.

Your conscientious efforts, as well as your concern for the problems in our area, make PVC a better place to work. I add my thanks along with those of your fellow workers for your outstanding performance.

J. J. Uihlein
