INTERNAL CORRESPONDENCE

 SWRCO Technical Services (UNIT)	TO	B. Pope	DATE	November 15, 1994
	FROM	J. M. McGowan 8-323-7338 <i>JMM</i>	SUBJECT	Asbestos Removal BTX Compressor

The following amounts of asbestos will need to be removed as part of the BTX Recycle Compressor turbine to electric motor change out:

1 - 1/2" piping approximately 70'

2 - 16" piping approximately 25'

The 16" piping is cool enough to remove the asbestos before the December 5 scheduled shutdown. Basic Industries will build the scaffold and remove the asbestos. The asbestos abatement should start no later than November 28, 1994.

If you have any questions, call me at 7338.
