

Ed Benedict, we could never have done it without you.

In 1891, National Lead was, as you might expect,
in the lead business.

Today our more than 50 divisions and subsidiaries
throughout the world manufacture in over 200 product
categories, with annual sales in excess of three-
quarters of a billion dollars.

None of it would have been possible without Ed Benedict.
Who is he?

He's one of our 26,000 loyal employees.

He's one of the millions of people who live in the cities
and towns where we operate. And without whose
cooperation we wouldn't be operating at all.

National Lead has a lot to be thankful for. But most
of all we're thankful to people like you.

Ed Benedict, National Lead says thanks.

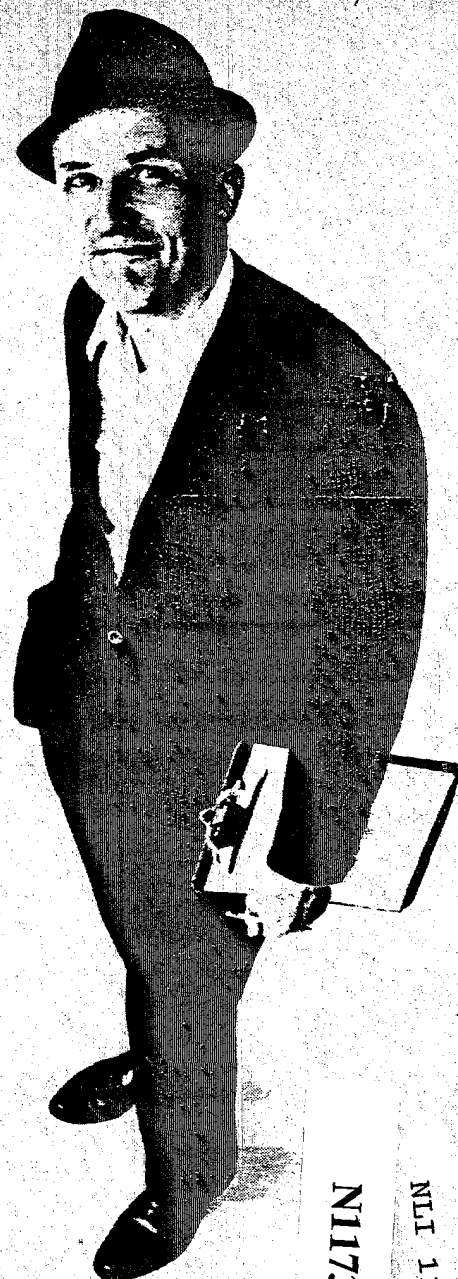

National Lead

An Equal Opportunity Employer

Helping the economic
growth of New Jersey:
