FILE NAME: Drywall Spackling Compounds (DWSC)

DATE: 1975 Aug 27

DOC#: DWSC016

DOCUMENT DESCRIPTION: Letter to Mt. Sinai School of Medicine RE US Gypsum & Asbestos

August 27, 1975

Dr. Arthur N. Rohl
Environmental Sciences Lab.
Mt. Sinai School of Medicine
5 Avenue & 100 Street
New York, New York 10029

Dear Dr. Rohl:

On August 25 we had a phone conversation re: the use of asbestos in spakling compounds. You and Dr. Selikoff were kind enough to take the time to give me much valuable information at that time, so I promised I'd send you a copy of any correspondence I sent to U.S. Gypsum. Here it is.

Incidentally, yesterday I spoke to Dr. Langer and he expressed interest in seeing what I had written. Would you make a copy for him or pass this one on to him?

I will also mail you a copy of any reply I receive from U.S. Gypsum or the USCPSC.

Yours very truly,

Ralph Georgalis
