SOLVENTS AND INTERMEDIATES

May 29, 1981

Richard J. Waxweiler, Ph.D.
Chief, Biometry Section
Industry Wide Studies Branch
NIOSH
4676 Columbia Parkway
Cincinnati, Ohio 45226

Dear Rick:

Attached is a second copy of the list of employees on the Texas City Cohort file with questionable data. The circled items have been re-searched and correct data has been entered where appropriate. Where no change has been made, the information shown agrees with our records. If the item is incomplete, it is because our records were incomplete. Some of the new data entered actually appeared on the first copy of the UC-1 Tape we received but apparently was lost on the revised tape.

I have placed a call for you this afternoon, however, if you are unable to get back today, please call me as early as possible next week and let me know when we can expect a copy of the final tape. We feel that no further effort to correct the data should be made other than those items printed on the attached list plus those included in my letter to you dated May 20, 1981.

Sincerely,

Dorothy C. Heyen
Employee Relations Administrator
