L. B. GRANT, M. D.  
MEDICAL DIRECTOR  
PPG INDUSTRIES  
ONE GATEWAY CENTER  
PITTSBURGH, PA. 15222

DEAR LEE:

HAVE JUST RECEIVED, THIS DATE, THE ENCLOSED REPORT FROM  
DR. CRAFT AND DR. JOHNSON SO THOUGHT I'D SEND YOU A COPY OF SAME.

IN REFERENCE TO THE "HEALTH HAZARDS" LISTED ON PAGE 11, I AM  
ITEMIZING MY COMMENTS AS FOLLOWS:

1. THE LUNCH ROOM IS ABOUT 50' TO 60' FROM THE FORMING DEPT.  
ACCORDING TO THEIR AIR SAMPLE COUNTS, THE FINISHING DEPT. IS THE  
DUSTIEST AREA, AND THE LUNCH ROOM IS ABOUT 200' FROM THE FINISHING  
DEPT.
2. NO COMMENT
3. MASKS ARE WORN IN THE FEEDING DEPT. - I NEVER HEARD OF ANY  
PROBLEMS WITH DIATOMACEOUS EARTH.
4. ALL SCRAP PILES ON OUR PROPERTY HAVE BEEN BURIED IN PITS AND  
COVERED WITH 3 TO 4 FEET OF EARTH.
5. "MAY PRESENT A SILICA DUST PROBLEM"?? B.S.

ADDITIONAL COMMENTS

1. THE SIX OIL FIELD HEATERS HAVE BEEN IN OPERATION IN THIS  
PLANT FOR MANY YEARS. SINCE THERE IS ALWAYS ROOF AIR CIRCULATION AND  
VENTILATION, WE HAVE NEVER EXPERIENCED ANY DIFFICULTIES, HOWEVER,  
IT IS A VERY SIMPLE MATTER TO ELIMINATE THEM COMPLETELY.

2. OUR EMPLOYEES USE THESE AIR OUTLETS OUTSIDE OF THE PLANT  
BUILDINGS - SAFETY GLASSES AND RESPIRATORS ARE ALWAYS WORN WHEN  
BLOWING OFF.

HIGHLY CONFIDENTIAL  
SUBJECT TO PROTECTIVE ORDER

VERY TRULY YOURS,

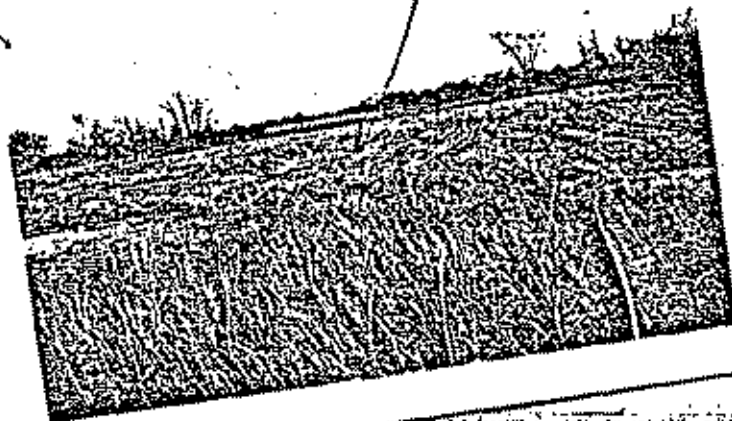

CEV:DM
