We definitely cannot do that award presentation. I'm including Millan just for her information. I've made changes to the plan to make sure this makes sense (you wrote 4:5, so I assume it's 4:05, but if it's 4:50 let me know).

4:05 – 15-20 min Conversation with Lt. Gov. Dan Patrick on cooperation with the states, the environment, business, and the EPA. Audience of energy, industry, and state officials. You say, expected size 250, but how are we doing crowd control? How are we preventing protesters interrupting the speech? I'm not comfortable with this event without a better sense of how we will ensure that the audience is secure.

4:30-5:00 Closed discussions with environmental leaders (nature conservancy, audobon society, Mitchell foundation) – photo opp

5:00 Tour of exhibits with Trammell Crow -- Cars / Automobile building / Centennial – Photo opp

5:45-:6:30 Closed meeting with public utility commissioners – photo opp

Does that look good?

JP-

We could shorten his comments to 15-20 minutes and start at 4:5

Dan Patrick (Lt Gov of Texas or Ken Paxton AG Texas could ask him some pre-arranged questions about

co-operative Federalism or ANY other states rights VS Feds or environmental issues. I realize you have rejected this

idea several times and can do so again.

Trammell is not available until 5 pm to tour. So the private reception from 4:30-5 is necessary.

We can cut down the time of the tour and not do any press comments, but provide a photo opportunity?

The EPA award is for this

You tell me if this is ok.

Audubon. TNC and Mitchell Foundation is a go 3 people

We have 8 PUC commissioner's from I believe 6 states and I will send names.

Trust is something important here.

Want this to be positive for all.

Will call / bf
