

Get Better Exterior Jobs with this **STANDOIL TYPE LINSEED OIL!**

*...An Improved Linseed Oil
made especially for use with
DUTCH BOY White-Lead*

● No wonder the Dutch Boy wears a smile! He's bringing you a load of good news. Bringing you a new type of linseed oil that you'll soon be going for in a big way.

It's a linseed oil that has been processed by a special Dutch Boy method and made especially for use with Dutch Boy White-Lead.

We call it "Standoil Type"—because it is similar to the bodied oil made by the Dutch and long employed in preparing high-grade enamels.

Used with Dutch Boy White-Lead, here's what it does:

1. Gives improved gloss and gloss retention.
2. Imparts better leveling qualities to the paint and thus gives a smoother finish.
3. Reduces the tendency toward dirt collection.
4. Helps to prevent paint troubles due to absorbent, weathered surfaces.

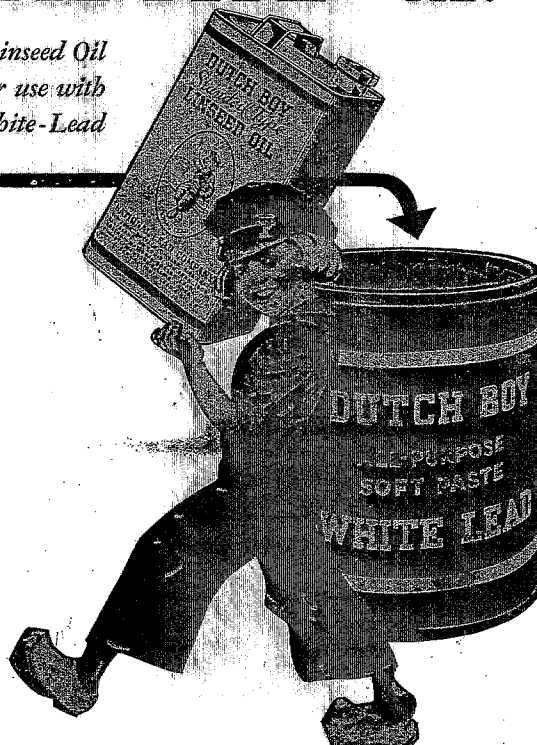

Although Dutch Boy Standoil Type linseed oil possesses more body than raw linseed oil, it mixes easily and quickly with white-lead.

Like Dutch Boy raw or boiled linseed oil, Standoil Type is pure linseed oil of the finest quality...sealed at the factory for your protection in 1-gallon and 5-gallon containers.

Try this new oil on your next outside job. Use it to improve appearance and protect your labor and skill.

NATIONAL LEAD COMPANY

Lewis & Bros. Co., 1000 Market Building, Philadelphia.

Make every job an All-Dutch Boy Job!

In addition to white-lead and linseed oil, the following painters' products can be had under the Dutch Boy trade-mark:

DUTCH BOY LEAD MIXING OIL

A special oil for use with Dutch Boy White-Lead to produce white-lead tint and semi-gloss finishes of unusual beauty and durability. So durable is the paint it is used outside, as well as inside. For sealing and decorating plaster, wall board, stucco, stone, concrete, brick.

DUTCH BOY WALL PRIMER

Sealer, primer and paint coat, all in one. Seals plaster, wall board and plaster board. Bridges fine-cracks. Hides blemishes. Spreads easily. Covers fast.

DUTCH BOY COLORS-IN-OIL

For tinting Dutch Boy White-Lead paint. High strength and true color tone assure clear, pure tints. Soft paste consistency gives quick and complete dispersion. No thinning required. All popular colors.

DUTCH BOY LIQUID DRIER

Formulated for Dutch Boy jobs. A drier that safeguards your paint. Usually scarce. Properly balanced. Used as recommended causes paint to dry at the proper rate. Will not curdle the paint.
