Subject: Presidential Exemption: MATS RTR: Newton Power Station

Caution: This email originated from outside EPA, please exercise additional caution when deciding whether to open attachments or click on provided links.

Please accept the attached letter on behalf of Illinois Power Generating Company requesting a Presidential exemption under Section 112(i)(4) of the Clean Air Act ("CAA") from compliance with the filterable particulate matter ("fPM") surrogate emission standard for non-mercury metal hazardous air pollutants ("HAP") and the requirement to install continuous emissions monitoring systems ("CEMS" or "PM CEMS") under the MATS RTR for Newton Power Station Unit 1 ("Newton"). Illinois Power Generating Company is requesting a two-year exemption, beginning July 6, 2027, from these requirements for the Newton facility.

Best Regards,
