used properly, will require fewer trips to the local supermarket.

The separate dining room is a beautiful setting for formal dinners and parties. For a time, the family room replaced the dining room. Now, more and more prospective builders are including both of these rooms when planning their dream homes.

All bedrooms are of sufficient size to accommodate twin beds if preferred. The master bedroom is wonderfully remote from the other bedrooms. It has its own private bath and dressing area. The dressing room has two wardrobes — which soundproofs this area from the covered entry porch by the use of a high window.

Note the interesting roof treatment and screening used at the entrance to the breezeway.
