To: Mr. R. H. Yapp
Safety and Security Coordinator
Personnel Services

Subject: Exposure to Asbestos Dust

Reference: Your letter of October 4, 1972

The following is a breakdown of potential sources of asbestos dust at Michigan Truck Plant and the estimated exposure time:

- A. Two men with a total annual exposure of 0.5%.
Misc. cutting into repair oven to make repairs.
- B. Two men with a total annual exposure of 0.4%.
Reworking of brake shoes, exhaust gaskets, etc.
- C. One man with a total annual exposure of 0.2%.
Standing in area while contractor fire blankets are put into place.
- D. Two men with a total annual exposure of 0.4%.
In-plant use of fire blankets.

If further information is desired, please advise.
