BRAKE LINING CATALOG ORIENTATION

The following three pages of Brake Lining Catalog Orientation is an abbreviated Study Course in the use of this Catalog. We feel it will be beneficial to anyone in locating the correct application data for passenger cars, trucks, trailers, buses and axles from 1953 to the latest confirmed application.

Some passenger cars and trucks have the original lining bonded to the brake shoe. These models are indicated and we refer you to your current catalog on Relined Brake Shoes.

This catalog has five (5) basic sections to help you determine the proper lining set for each application. The following pages will explain each section in order as follows.

I. ALPHABETICAL LIST: Domestic Cars; Foreign Cars & Trucks, Trailers, Buses and Axles.

II. DIMENSIONAL INFORMATION: A. Truck Lining Strip Sets — By Width; B. Thick Blocks — By Width and Drill Patterns.

III. CROSS REFERENCE: Thick Block Number By Width and Drum Diameter to Drill Pattern.

IV. EMERGENCY BRAKE LINING: By Make.

V. NUMERICAL LIST: Dimensional and Application.

SECTION I

ALPHABETICAL LIST

The Alphabetical List is divided into three sections — Domestic Cars, Foreign Cars and Trucks, Trailers, Buses and Axles.

These sections are similar but have been listed separately for easier identification. All are listed alphabetically by make and model. Each section is divided into five columns. The first column gives the vehicle year. Column two gives the model names and other information pertaining to each such as 6 or 8 cylinder engines, station wagons, etc. Column three gives brake type whether they are Disc, Bendix Servo, Non-Servo, Air, Hydraulic, etc. Columns four and five give you the proper lining sets to be used for both the front and rear axles.

At the end of each truck listing there is a numerical list that gives each part number and size for each application pertaining to that model.

Year	Model	Brake Type	Front	Rear
	G.M.C. TRUCK - CONT.			
56	860-67: DFMW, DFW	A-A	4563D	4460D
56	920: DFA, DFMA	A-A	4563D	4557D or
		A		4311AD
56	920-67: DF, DFM	A-A	4563D	4515D
56	930: DA	A-A	4563D	4557D or
		A		4452D
58-59	930: DA	A-A	4563D	4514D
56	950: DFMWA, DFWA, DMWA	A-A	4563D	4557D
58-59	950: DWA	A-A	4563D	4514D
56	950-67: DMW, DW	A-A	4563D	4557D
56	970: DWA	A-A	4563D	4452D
58-59	970: DWA	A-A	4563D	4515D
	1000: N, P			

Year	Model	Brake Type	Front	Rear
	G.M.C. TRUCK - CONT.			
66-67	4000: DLV, LA, LV, LV1	F-FR	1245AD	4640D
63	4000: KV	L-BT	330D	2032D or
		FR		4596D
64-65	4000: KV	L-BT	330D	2032D
66	4000: KV	L-FR	330D	4640D or

SECTION II

Drum Size	Thickness	Length	Part No.
2" Width			
12	15/64	10-1/8-13	296ATD
12	1/4	12-5/8	1014D
12	1/4	13-10	2040D
12	5/16	11-1/4	1284D
12-1/[illegible]		11-5/8	2026D

Drum Size	Thickness	Length	Part No.
3" Width (cont.)			
14-1/8	3/8	14-1/2	1236D
15	5/16	9-3/4	6036D
15	5/16	16-5/8	1245A & CD
[illegible]	7/16	15-7/8	[illegible]

Drum Size	Thickness	Length	Part No.
4" Width (cont.)			
16-1/2	3/8	17-1/2	1259D
16-1/2	3/8	15-3/8	4481D
16-1/2	1/2	17-1/4	4205D
16-1/2	1/2	18-5/8	4379D
[illegible]	1/2	17-1/2	4410BD

Strip type brake lining sets for trucks are listed and are grouped by width, from the smallest to the largest drum size, thickness and length of lining is shown to assist you in determining the set required if the part number or model identity is not known.
