Dear Bob:

Since I have had no reply to my letter relative to a proposed symposium on industrial medical education, I presume you are out of town.

But the chairman of the Scientific Assembly of the A. M. A. is on my tail for report of our plans. In years gone by and especially the past two years, no program was formulated by our Section until late in the spring, which brought severe criticism on our heads (not mine, as I was not then involved). This year I am determined to be as up to the minute as other section secretaries.

So ---- I am anxious to get your advice as soon as possible.

Sincerely,

Red

R. T. Johnstone, M. D.
