Attn: Mrs. Joan Holtze

Release #13 of our Blanket Order 03867 received in our plant July 17th, again contained a small amount of "Blue Asbestos". You've indicated in the past that this is impossible-- but it continues to occur.

We've located 26 bags of Blue thus far out of this shipment. As you know, we are unable to use this material and will appreciate your continued efforts to eliminate same from our shipments.

Can we discuss credit allowance for these 26 bags?

Sincerely yours,

FOSECO, INC.
