## Interoffice Communication

To Distribution

From J.J. Hall-Houston

Date January 29, 1979

Subject 1979 CHEMICALS MEDICAL TESTING

This will confirm the agreements reached at the chemicals medical testing scheduling meeting, January 25, 1979, in Houston.

- 1) For 1979, AHP records will not include exposure monitoring and protective equipment data. The Safety Director will provide information on exposures in his plant to Dr. Jones by memo. This information will be forwarded to Dr. Jones prior to his receipt of the medical monitoring results. The Safety Director will consult with the hands-on physician should he have questions regarding chemical exposures in the plant.
- 2) Dr. Drumwright and Mr. Bransford will develop an improved format for the statistical summary.
- 3) The 1979 van schedule as furnished by AHP at the meeting is acceptable.
- 4) The following general time table was agreed to:
