**DEFENDANT E. I. DU PONT DE NEMOURS AND COMPANY'S RESPONSES TO PLAINTIFF
JAMES RICHARD DAVIS' INTERROGATORIES, REQUEST FOR PRODUCTION
AND REQUEST FOR ADMISSION**

TO: James Richard Davis, Plaintiff, by and through his attorney of record, D. Leanne Jackson, BARON & BUDD, P.C., The Centrum, 3102 Oak Lawn Avenue, Suite 1100, Dallas, Texas 75219.

Pursuant to Rules 196, 197, and 198 of the Texas Rules of Civil Procedure, E.I. du Pont de Nemours and Company ("DuPont") responds and objects to the following Interrogatories, Requests for Production and Requests for Admission.

PRELIMINARY STATEMENT

Information provided in these responses is based upon such information as presently is reasonably available to DuPont, and DuPont expressly reserves the right, without imposing on DuPont any duty not required by the Texas Rules of Civil Procedure, to supplement these responses when and if additional information or documentation comes to its attention. Unless otherwise indicated, the time frame covered by these responses is through 1985 for corporate and LaPorte site documents and information. When the response to an Interrogatory or Request for Production indicates that documents will be produced or otherwise refers to documents, the documents that will be produced or that are being referred to, unless otherwise specifically indicated in the response, were collected from DuPont's corporate headquarters and/or its LaPorte, Texas facility, which is the DuPont facility at which Plaintiff James Richard Davis alleges he was exposed to asbestos-containing materials. The corporate and LaPorte documents referred to in these responses have previously been produced to Plaintiff's counsel, but will be made available for inspection and copying again at the offices of Kirkley Schmidt & Cotten, L.L.P., at 10:00 a.m. on June 8, 2001.

DuPont objects to this discovery in its entirety as overbroad and unduly burdensome given that Plaintiffs have only provided limited information regarding the location and times periods of

alleged asbestos exposure of James Richard Davis at a DuPont facility. Plaintiffs' Petition only states that Plaintiff James Richard Davis was allegedly exposed to asbestos materials while at DuPont's LaPorte facility in Harris County, Texas, and no information regarding the specific projects and tasks undertaken by Plaintiff at the LaPorte facility was provided. Under these circumstances, DuPont objects to this discovery because it is not limited to the LaPorte facility during the specific time period that Plaintiff James Richard Davis was allegedly present at that site.

Although Plaintiffs have provided insufficient information regarding the circumstances of James Richard Davis' alleged exposure to asbestos at a DuPont facility, in the interest of avoiding unnecessary discovery disputes, DuPont has provided reasonable responses to Plaintiffs' pending discovery and will make documents available for Plaintiffs' counsel's inspection.

DuPont objects to Requests for Admission that assume disputed facts. When DuPont objects to a specific admission on the basis that it "assumes disputed facts," DuPont is referring to facts on which Plaintiff James Richard Davis has the burden of proof and that are currently disputed or are facts that DuPont reasonably believes will be disputed as investigation and discovery proceed.

Responses made after objection are made without waiver of those objections. All responses are made subject to and without waiving the Preliminary Statement.

Respectfully submitted,

Larry E. Cotten

This is to certify that a true and correct copy of the above and foregoing instrument was served by certified United States mail, return receipt requested, on this 15th day of June, 2001, on Plaintiff's attorney of record, D. Counsel for DuPont

OBJECTION TO INSTRUCTIONS

1. DuPont objects to Plaintiff's instruction that it label all things produced in response to a request for production. DuPont will comply with Rule 196.3(c) in the production of documents.

OBJECTION TO DEFINITIONS

1. a. DuPont objects to Plaintiff's definition of "Defendant", "You", "Your", and "Your company" to the extent that it includes "subsidiaries, foreign subsidiaries, foreign subsidiaries of predecessors, parent companies, sister companies, and/or affiliates" because the definition is overbroad and seeks information that would be irrelevant and not calculated to lead to the discovery of admissible evidence in this case. Further, the definition amounts to an impermissible fishing expedition because DuPont is not being sued in this case for any alleged conduct of any "subsidiaries, foreign subsidiaries, foreign subsidiaries of predecessors, parent companies, sister companies, and/or affiliates".

b. DuPont objects to the portion of the Plaintiff's definition of "Defendant", "You", "Your", and "Your company" that refers to "all other persons acting or purporting to act on behalf of the corporate Defendant or its predecessors, subsidiaries, and affiliates" because it is overbroad, vague, ambiguous, and requires DuPont to speculate about who may or may not come within the definition. Further, the definition amounts to an impermissible fishing expedition because DuPont is not being sued in this case for any alleged conduct of any "predecessors, subsidiaries, and/or affiliates."

c. DuPont objects to the portion of Plaintiff's definition of "Defendant", "You", "Your", and "Your company" that defines "Predecessors" because it is overbroad, vague, ambiguous, and improperly attempts to require DuPont to answer for or with respect to separate legal entities for whose conduct or liabilities DuPont could not be responsible as a matter of law. Further, the definition amounts to an impermissible fishing expedition because DuPont is not being sued in this case for any alleged conduct of any "Predecessors".

d. DuPont objects to the portion of Plaintiff's definition of "Defendant", "You", "Your", and "Your company" that defines "Subsidiaries" because it is overbroad, vague, ambiguous, attempts to expand unreasonably the meaning of a word that has a definite legal meaning, and improperly attempts to require DuPont to answer for or with respect to separate legal entities for whose conduct or liabilities DuPont could not be responsible as a matter of law. Further, the definition amounts to an impermissible fishing expedition because DuPont is not being sued in this case for any alleged conduct of any "Subsidiaries".

2. DuPont objects to the portion of Plaintiff's definition of "document", "documents", "written materials", or "printed matter" that refers to documents that "were formerly in the possession, custody, or control of the Defendant (including documents at any time in the possession, custody or control of their subsidiaries, whether domestic or international, or merged or acquired predecessors), or . . . regardless of who now has or formerly had custody, possession or control", because it is overbroad and attempts to expand DuPont's obligation to produce documents far beyond the requirements of the Texas Rules of Civil Procedure. Further, the definition amounts to an impermissible fishing expedition because DuPont is not being sued in this case for any alleged conduct of any subsidiaries or affiliates.

3. DuPont objects to Plaintiff's definition of "meeting" or "meetings" because it is overbroad, vague, ambiguous, and calls for speculation.

4. DuPont objects to Plaintiff's definition of "medical advisory capacity" because it is overbroad, ambiguous, and calls for speculation. It would include anyone on DuPont's "staff" who might have any medical "abilities or capabilities" (whatever that means) even if their job had nothing to do with any medical function.

5. DuPont objects to Plaintiff's definition of "identify" with respect to documents because it is overbroad, vague, ambiguous, and calls for speculation.

6. DuPont objects to Plaintiff's definition of "Time Period At Issue" as overbroad, unduly burdensome and is irrelevant to the extent it is not contiguous with the time Plaintiff worked at a DuPont site.

RESPONSES AND OBJECTIONS TO SPECIFIC DISCOVERY REQUESTS

The Preliminary Statement set forth above is adopted and incorporated into the responses and objections to each of the following Interrogatories, Request for Production, and Request for Admission as if fully repeated verbatim to each Interrogatory and Request. The Objections to Instructions and Definitions set for above are adopted and incorporated into the responses and objections to each of the following Interrogatories, Request for Production, and Request for Admission in which the objected-to terms appear, as fully as if those objections were repeated verbatim in response to such interrogatory and request.

INTERROGATORY NO. 1:

For each person who has supplied any information used in answering these interrogatories, or who assisted in identifying, locating or retrieving documents responsive to Plaintiff's Requests for Production, identify such person and include the length of time employed by Defendant or other employer, and a year-by-year list of all other positions, titles, or jobs held.

ANSWER:

DuPont objects that this interrogatory requests information that DuPont is not required by the Texas Rules of Civil Procedure to provide. Subject to and without waiving its objections, DuPont responds that given the fact that information used to respond to these interrogatories involves matters occurring decades ago, that it must be gathered from numerous sources, including DuPont records and other documents created, compiled, or collected by many different persons, including DuPont's counsel, it is not reasonable or possible to respond to this interrogatory as written. DuPont's responses were prepared by counsel based upon information received from a variety of sources.

INTERROGATORY NO. 2:

As to each of the following, please state the first year you first became aware, what you learned, and how Defendant learned that humans who inhale asbestos fibers can contract

- a. asbestosis
- b. lung cancer
- c. mesothelioma

ANSWER:

DuPont objects to this Interrogatory because it is overbroad, burdensome, and is not limited to any circumstances reasonably related to Plaintiff's claims in this case.

Subject to and without waiving its objections and in accordance with its preliminary statement, DuPont states that individual DuPont employees may have become aware at varying times, of a possible association between prolonged exposure to respirable asbestos fibers and disease in humans under some circumstances. The Company, however, after reasonable and good faith investigation, is unable to identify a particular date on which it, as a corporate entity, first knew of this possible association. In addition, knowledge of asbestos-related diseases and the circumstances associated with them developed gradually and was acquired over time; therefore, it is not possible to identify a specific date in response to this question as worded. Documents containing nonprivileged information pertaining to this interrogatory will be produced at the offices of Kirkley Schmidt & Cotten, L.L.P., on June 8, 2001, at 10:00 a.m.

INTERROGATORY NO. 3:

Please list all trade organizations, trade associations and any other industry-wide groups to which you belong(ed) (specifically including but not limited to the following groups: American Hygiene Foundation, Industrial Hygiene Foundation, Chemical Manufacturer's Association, American chemical Council, American Petroleum Institute, Texas Chemical Council, Ohio Safety Congress, National Safety Council, Asbestos Information Association, Industrial Medical Association) in which information or documents relating to asbestos was discussed, disseminated, or published (including, but not limited to, the effects of exposure to asbestos, industrial hygiene measures relating to asbestos dust, and medical information or research relating to asbestos or its effects on animals or humans, populations at risk). As to each such group, please state:

- a. the inclusive dates of your membership and
- b. Identify Defendant's employees or former employees or representatives who attended any of the meetings held by each organization, and
- c. the meetings they attended, and
- d. if any individuals employed by Defendant or representing Defendant were members of committees or subcommittees of any such organizations, (such as, e.g., a medical advisory committee or legal committee), identify the committee or subcommittee on which such individual served and the position occupied on the committee, if applicable.

ANSWER:

DuPont objects to this interrogatory on the ground that it is overly broad and unduly burdensome to the extent it would require DuPont to provide membership information concerning untold number of unspecified organizations. Subject to and without waiving its objections and in accordance with its preliminary statement, DuPont states that it does not maintain a comprehensive central listing of all organizations and associations of which it may have been a member or in which it may have participated at a corporate level or at the site level. Furthermore, DuPont does not maintain a centralized list of its employees' memberships and affiliations. After reasonable investigation, DuPont has determined that it was a member of the following organizations:

1. Industrial Hygiene Foundation (name changed to Industrial Health Foundation in 1970) - DuPont was a member from approximately July 1936 through 1985;
2. American Petroleum Institute - DuPont was a member from 1949 (which API has indicated is as far back as its records go) to 1981, then via Conoco's membership from 1982 through 1985;
3. National Safety Council - DuPont has been a member since 1914;
4. Chemical Manufacturers Association - DuPont has been a member since 1917; and
5. Texas Chemical Council - since 1953.

INTERROGATORY NO. 4:

Please identify Defendant's employees or former employees or representatives who attended any proceedings, symposia, or conferences of a scientific or medical or technical nature at which information or documents relating to asbestos was discussed, disseminated, or published, (including, by way of example, the effects of exposure to asbestos, industrial hygiene measures relating to asbestos dust, and medical information or research relating to asbestos or its effects on animals or humans, populations at risk) and specifically including but not limited to the Seventh Saranac Symposium, 1952, and/or New York Academy of Sciences, October 1964, and for each such individual, state the proceedings, symposia, or conferences attended and to whom within your corporate organization information concerning attendance at such proceedings, symposia, or conferences were reported, either verbally or in documentary form.

ANSWER:

DuPont objects to this interrogatory on the ground that it is overly broad and unduly burdensome to the extent it would require DuPont to provide information regarding its employees

attendance at an untold number of meetings of unspecified organizations. Subject to and without waiving its objections, DuPont states that it does not maintain a comprehensive central listing of all organizations and associations of which it may have been a member or in which it may have participated at the corporate level or at the site level. Furthermore, DuPont does not maintain a centralized list of its employees' memberships and affiliations. Subject to its preliminary statement and without waiving any objection, documents containing nonprivileged information pertaining to this request will be produced at the offices of Kirkley Schmidt & Cotten, L.L.P. on June 8, 2001, at 10:00 a.m.

INTERROGATORY NO. 5:

Please identify each company from which you acquired asbestos-containing products used at Defendant's Premises At Issue during the years Plaintiff has indicated he worked at Defendant's Premises At Issue and include in your response

- a. a description of each asbestos-containing product acquired and
- b. the dates each asbestos-containing product was acquired.

ANSWER:

DuPont objects to this request as overbroad, unduly burdensome and irrelevant to the extent it is not limited to the time periods that plaintiff James Richard Davis allegedly was present on the site. DuPont further objects that this request is impermissibly vague and ambiguous in that it fails to specify particular asbestos-containing products at issue. Subject to its preliminary statement and without waiving any objection, documents containing nonprivileged information pertaining to this request will be produced at the offices of Kirkley Schmidt & Cotten, L.L.P. on June 8, 2001, at 10:00 a.m.

INTERROGATORY NO. 6:

If any asbestos-containing materials located or formerly located at Defendant's Premises At Issue have been removed, encapsulated, otherwise abated at any time,

- a. Identify each person or company that performed such abatement services;
- b. State the dates and locations within Defendant's Premises At Issue of each abatement procedure;
- c. Describe what asbestos-containing materials were abated; and
- d. State how such asbestos-containing waste was stored at Defendant's Premises At Issue prior to disposal and how it was disposed of.

ANSWER:

DuPont objects to this interrogatory because it is overbroad and is not limited in time or subject matter to any circumstances reasonably related to Plaintiff's claims in this case.

INTERROGATORY NO. 7:

Please identify and state the experience and qualifications, if applicable, of every person known to you, your agents, or contractors as having knowledge of facts relevant to this case concerning Defendant's Premises At Issue during the Time Period At Issue, including but not limited to the identification or location in your premises of asbestos-containing products to which Plaintiff was exposed or facts disputing the identification or location of such product or type of products.

ANSWER:

DuPont objects to this interrogatory requesting a listing of "every person known to you" having "knowledge of facts relevant to this case" because it is overbroad and is not limited in time, location, or subject matter to any circumstances reasonably related to Plaintiff's claims in this case. DuPont further objects that this request constitutes an unwarranted fishing expedition that is beyond the permissible scope of discovery under the Texas Rules of Civil Procedure. Subject to and without waiving its objections and in accordance with its preliminary statement, nonprivileged documents containing information pertaining to this request will be produced at the offices of Kirkley Schmidt & Cotten, L.L.P. on June 8, 2001, at 10:00 a.m.

INTERROGATORY NO. 8:

With respect to Defendant's Premises At Issue during the Time Period At Issue, please identify and state the experience and qualifications, if applicable, of every person known to you, your agents, or contractors as being employed by you or having been employed by you whose duties and/or responsibilities included interface or liaison with Plaintiff's employer or other contractors who installed, removed, maintained, repaired or replaced asbestos-containing products (including foremen or supervisors or Plaintiff) on Defendant's Premises At Issue (regardless of job title, including but not limited to "plant engineers", "project engineers", "company engineers", "project superintendents", "purchasing agents" or job descriptions of a similar nature) and specifically include those whose duties and responsibilities included the following:

- a. entering into contracts or purchase orders (including specifications) with such contractors
- b. allowing such contractors access to Defendant's Premises At Issue,

- c. overseeing or supervising or observing or monitoring such contractor activities or addressing any contractor questions or concerns relating to the work being performed
- d. providing or approving asbestos-containing materials to be used by such contractors
- e. inspecting or approving work done by such contractors or authorizing payment for work done by such contractors.

ANSWER:

DuPont objects to this request as overbroad, unduly burdensome, and irrelevant to the extent that Plaintiff has not supplied any information through his discovery or pleadings which indicate what his job duties or projects were while he allegedly worked at the DuPont LaPorte facility. DuPont objects to listing "every person known to you" having "knowledge of facts relevant to this case" because it is overbroad and is not limited in time, location, or subject matter to any circumstances reasonably related to Plaintiff's claims in this case. DuPont further objects that this request constitutes an unwarranted fishing expedition that is beyond the permissible scope of discovery under the Texas Rules of Civil Procedure. Subject to and without waiving its objections and in accordance with its preliminary statement, nonprivileged documents containing information pertaining to this request will be produced at the offices of Kirkley Schmidt & Cotten, L.L.P. on June 8, 2001, at 10:00 a.m.

INTERROGATORY NO. 9:

If you have or have had an industrial hygiene or safety or medical department, please

- a. state the year such department was established, and whether it was established on the corporate level or at Defendant's Premises At Issue or both and
- b. with respect to Defendant's Premises At Issue during the Time Period At Issue, please identify and state the experience and qualifications, if applicable, of every person known to you, your agents, or contractors as being or having acted in a medical, safety, or industrial hygiene advisory capacity (regardless of job title), specifically including, but not limited to, physicians, medical directors, medical personnel, nurses, safety engineers or managers and industrial hygienists. (You should include in your answer those persons on a corporate level, regardless of whether they worked directly on Defendants' Premises if they had such responsibilities for workers on Defendant's Premises At Issue, and identify such individuals as affiliated with the corporate headquarters of Defendant.)

ANSWER:

DuPont objects to this interrogatory because it is not reasonably tailored or limited in time, location, or circumstances to matters reasonably related to Plaintiffs' claims against DuPont in this case.

Subject to its preliminary statement and without waiving any objection, DuPont states that the following individuals served as Corporate Medical Directors:

1. Allen James Fleming, M.D. (1954-66)
2. C.A. D'Alonzo, M.D. (1966-72)
3. J. Richard Zahn, M.D. (1972-77)
4. Bruce W. Karrh, M.D. (1977-83)
5. Burford W. Culpepper, M.D. (1983-85)

In addition, the following individuals were plant physicians at the La Porte facility:

1. Charles C. Cogburn, M.D. (1955-1963)
2. J. L. Zografos, M.D. (1963-1977)
3. George Herrmann, M.D. (1978-1980)
4. George P. Allison, M.D. (1981-1985)

INTERROGATORY NO. 10:

Please identify all warnings given by Defendant, if any, to anyone at Defendant's Premises At Issue (including the Plaintiff) regarding the hazards of asbestos and the dangers inherent in the inhalation of asbestos fibers, and please include in your response:

- a. to whom these warnings were given (and specifically state if Plaintiff was among them),
- b. when they were given, if ever, and
- c. in what manner they were given (e.g. written pamphlets, signs posted, oral/group meeting, individual discussions, etc.); and
- d. state whether you have ever published, written, edited, or distributed any other printed materials, including brochures, pamphlets, catalogs, packaging, advertising, signs, statements, or other materials containing any warnings of the possibility of injury from the use or exposure to asbestos or asbestos-containing products; and
- e. state whether any of the foregoing warnings were in Spanish or any other language besides English.

ANSWER:

DuPont objects that the language "hazards of asbestos and the dangers inherent in the inhalation of asbestos fibers" is overbroad, ambiguous, and argumentative. DuPont further objects to subpart e. for the reason that it is irrelevant to the claims made by James Richard Davis. Subject to and without waiving its objections and in accordance with its preliminary statement, DuPont states that it provided information to workers, both its own employees and independent contractors, and its LaPorte facility at various times about a variety of potential workplace hazards. Nonprivileged documents containing information pertaining to this request will be produced at the offices of Kirkley Schmidt & Cotten, L.L.P. on June 8, 2001, at 10:00 a.m.

INTERROGATORY NO. 11:

If Defendant has or had or maintained in its possession any books, pamphlets, memoranda, or written materials of any kind or character that would indicate that asbestos fibers, when inhaled, can be hazardous to the health of human beings, please identify

- a. the individuals who received, maintained, reviewed, and disseminated the information contained in such written materials,
- b. identify the written materials received, and
- c. state how and why these materials came into Defendant's possession.

ANSWER:

DuPont objects that the language "asbestos fibers, when inhaled, can be hazardous to the health of human beings" is overbroad, ambiguous, and argumentative. Defendant objects that the language "had" seeks documents no longer in DuPont's possession, custody, or control, and is therefore not proper under the Texas Rules of Civil Procedure. DuPont further objects to this interrogatory as overbroad, unduly burdensome and irrelevant to the extent it is not limited to the time frame relevant to this case or the asbestos-related disease allegedly suffered by Plaintiff. DuPont objects that this interrogatory lacks specificity and does not describe with reasonable particularity each item requested, and is therefore overbroad. Subject to and without waiving its objections and in accordance with its preliminary statement, nonprivileged documents containing information pertaining to this request will be produced at the offices of Kirkley Schmidt & Cotten, L.L.P. on June 8, 2001, at 10:00 a.m.

INTERROGATORY NO. 12:

Please describe in detail your manufacturing or industrial use of any asbestos or asbestos-containing products at Defendant's Premises At Issue. Please include in your response

- a. the type of asbestos fiber used,
- b. from whom you purchased the asbestos fiber used,
- c. a description of the process in which the asbestos was used.

ANSWER:

DuPont objects to this interrogatory as overbroad, unduly burdensome and irrelevant because it is not reasonably tailored or limited in time, location, or circumstances to matters reasonably related to Plaintiffs' claims against DuPont in this case. DuPont objects that this interrogatory is impermissibly vague and ambiguous in that it fails to specify any particular "use of asbestos or asbestos containing products." In addition, DuPont objects to this interrogatory as outside the scope of permissible discovery because Plaintiffs do not allege that Plaintiff's injuries were caused by the use or exposure to any product manufactured by DuPont. Subject to and without waiving its objections and in accordance with its preliminary statement, DuPont states that it did not manufacture asbestos-containing products at the LaPorte facility.

INTERROGATORY NO. 13:

Identify by name and location each plant, facility, location, or premises owned, operated, or controlled by you in which asbestos-containing products were assembled, stored, used, prepared for use, installed, or fabricated during the Time Period At Issue. For each plant, facility, location, or premises listed as responsive to the above request, specify

- a. the functional dates for each plant, facility, location, or premises and
- b. the period during which asbestos-containing materials were stored, used, prepared for use, installed or fabricated.

ANSWER:

DuPont objects to this interrogatory because it is overbroad, unduly burdensome, and is not limited to the DuPont site, time or subject matter to any circumstances reasonably related to Plaintiff's claims in this case. DuPont further objects that this request is impermissibly vague and ambiguous in that it fails to specify particular asbestos-containing products at issue. Subject to and without waiving its objections and in accordance with its preliminary statement, documents containing nonprivileged information pertaining to this interrogatory will be produced at the offices of Kirkley Schmidt & Cotten, L.L.P. on June 8, 2001, at 10:00 a.m.

INTERROGATORY NO. 14:

For any of Defendant's Premises At Issue, during the Time Period At Issue, if you, your affiliates, subsidiaries, or predecessor(s), arranged for any of your employees, labor inspectors,

insurance company inspectors, industrial hygienists, or any other party, whether directly employed by you or otherwise, to count or measure quantity, quality or threshold limit values or concentrations of asbestos dust or particles or other dust at any of your plants, facilities, locations, or premises where asbestos or asbestos-containing products were used, assembled, installed, or removed, please describe such tests and indicate

- a. the results obtained,
- b. by whom such tests were performed and
- c. identify and state the experience and qualifications, if applicable, of every person known to you, your agents, or contractors as the person most knowledgeable concerning such tests and their results.

ANSWER:

DuPont objects to this interrogatory because it is overbroad and is not limited in time, location, or subject matter to any circumstances reasonably related to Plaintiff's claims in this case. Subject to and without waiving its objections and in accordance with its preliminary statement, documents containing nonprivileged information pertaining to this interrogatory will be produced at the offices of Kirkley Schmidt & Cotten, L.L.P. on June 8, 2001, at 10:00 a.m.

INTERROGATORY NO. 15:

For the Time Period At Issue, if you provided or caused to be provided any safety equipment or medical programs (including, but not limited to, masks, respirators, other breathing devices, protective clothing, protective gloves, area air filtration systems, and area exhaust systems or barriers or enclosures or medical monitoring program, medical examination program, or other medical or safety program) to employees, contractors, or invitees at any of your plants, facilities, locations, or premises where asbestos and asbestos-containing products were manufactured, used, assembled, installed, or removed, please indicate

- a. when such was first provided to your employees, contractors, and/or invitees and to whom,
- b. under what circumstances such were provided,
- c. state whether you conducted safety meetings discussing the hazards of asbestos with employees, contractors, or invitees at any of Defendant's Premises At Issue during the Time Period At Issue, and if so, when and what was discussed, and
- d. identify and state the experience and qualifications, if applicable, of every person known to you, your agents, or contractors as the person most knowledgeable concerning such equipment and programs and their provision.

ANSWER:

DuPont objects to this interrogatory because it is overbroad and is not limited to the DuPont site, time or subject matter to any circumstances reasonably related to Plaintiff's claims in this case.

DuPont further objects that the term "safety equipment" is vague and ambiguous. DuPont further objects to this interrogatory where DuPont is requested to identify the person with the "most knowledge" of its "safety equipment" policies because of the lack of any reasonable or relevant time frame and the failure to limit the subject of the interrogatory to matters relevant to this lawsuit, as well as the vagueness and ambiguity of the interrogatory; further, it requires DuPont to speculate about who might have the "most knowledge" about whatever policies may be included in the interrogatory. The Texas Rules of Civil Procedure provide for disclosure of the identities of persons with knowledge of relevant facts, but they do not require parties to speculate or make determinations about who may have the "most" knowledge about a subject. Subject to and without waiving its objections and in accordance with its preliminary statement, documents containing nonprivileged information regarding safety equipment will be produced at the offices of Kirkley Schmidt & Cotten, L.L.P. on June 8, 2001, at 10:00 a.m.

INTERROGATORY NO. 16:

Please state for each of Defendant's Premises At Issue, all relevant State and Federal regulations, laws, statutes, mandates, or other authority pertaining to industrial hygiene, safety, and health of which you were aware during the Time Period At Issue that governed, controlled, or applied to exposure to asbestos or asbestos-containing products, abatement or removal of asbestos-containing products, and transportation of asbestos containing waste from such removal or abatement activities.

ANSWER:

DuPont objects to this interrogatory for the reason that it is overbroad, unduly burdensome and irrelevant to the extent it is not limited to the time periods that plaintiff was allegedly present at the LaPorte site. DuPont further objects that the term "agency or other governing body" is vague and ambiguous. Further, DuPont objects to the request for "all relevant State and Federal regulations, laws, statutes, mandates, or other authority" because it amounts to a request that DuPont perform Plaintiff's legal research for them. DuPont objects because the law is as readily available to Plaintiffs as to Defendant.

INTERROGATORY NO. 17:

For any of Defendant's Premises At Issue, detail every occasion during the Time Period At Issue when any State, Federal, or local regulatory agency, commission, or other examiner inspected or visited any of your plants, facilities, locations, or premises where asbestos and asbestos-containing

products were used, manufactured, assembled, installed, or removed to ascertain whether you were in compliance with relevant State, Federal, or local health and safety regulations.

ANSWER:

DuPont objects to this interrogatory for the reason that it is overbroad, unduly burdensome and irrelevant to the extent it is not limited to the time periods that plaintiff was allegedly present at the LaPorte site. DuPont further objects that the term "or other examiner" is vague and ambiguous.

INTERROGATORY NO. 18:

If, before 1980, you had received notice that any individual or individuals had claimed for alleged injury against you resulting from exposure to asbestos, state for each:

- a. The name and address of the claimant
- b. A description of the claim
- c. The name and address of the attorney representing such claimant.

ANSWER:

DuPont objects that this interrogatory is overbroad, unduly burdensome and irrelevant because it is not reasonably tailored or limited in time, location, or circumstances to matters reasonably related to Plaintiff's claims against DuPont in this case. DuPont further objects that this interrogatory constitutes an unwarranted fishing expedition that is beyond the permissible scope of discovery under the Texas Rules of Civil Procedure. In addition, DuPont objects to this interrogatory to the extent that it seeks confidential and private employment and medical information with respect to DuPont employees and/or confidential workers' compensation files regarding individuals whose medical conditions are not at issue in this case. Subject to its preliminary statement and without waiving any objection, after reasonable investigation, DuPont states that it first received a worker's compensation claim from a DuPont employee alleging asbestos-related occupational injury in 1974.

INTERROGATORY NO. 19:

If you contend that you did not own or operate or control the Defendants' Premises during the Time Period At Issue, or if you contend you are not liable in the capacity alleged in the most recent petition, describe in detail the facts supporting your contention and include a detailed corporate history of Defendant and its ownership, sale, acquisition, or divestiture or any of Defendant's Premises At Issue and any relevant mergers, acquisitions, consolidation, or other events of similar nature that you believe bear on the issue of ownership, control, or assumption of liabilities

for acts occurring on Defendant's Premises At Issue during the Time Period At Issue and identify and state the experience and qualifications, if applicable, of every person known to you, your agents, or contractors as having knowledge of facts relevant to this issue.

ANSWER:

DuPont objects to this interrogatory because it is irrelevant, overbroad and is not limited in time frame or subject matter. DuPont further objects that this interrogatory is vague and ambiguous. DuPont objects to "describe in detail the facts supporting your contention and include a detailed corporate history" because, while Rule 197.1 allows a party to ask for the general factual bases of another party's contentions, it also prohibits the use of interrogatories to require a party to marshal all of its available proof or the proof the party intends to offer at trial. Subject to its preliminary statement and without waiving any objection, DuPont states that it began construction of the LaPorte facility in 1946, and has owned and operated the facility since that time.

INTERROGATORY NO. 20:

ANSWER:

Subject to and without waiving its objections and in accordance with its preliminary statement, Defendant refers Plaintiff to Defendant DuPont's Motion to Transfer Venue, Objection to Joinder under Section 15.003 of the Texas Civil Practice and Remedies Code and, subject to that Motion and Objection, Original Answer.

DuPont objects to the language that it produce "all documents concerning any warnings" for the reason that it is overbroad and not limited to the LaPorte plant site during the times plaintiff alleges he was present at the site. Subject to and without waiving its objections and in accordance with its preliminary statement, DuPont states that it provided information to workers, both its own employees and independent contractors, at its LaPorte facility at various times about a variety of potential workplace hazards. Loftin v. Martin, 776 S.W.2D 145, 148 (Tex. 1989) and *Texaco, Inc. v. Sanderson*, 898 S.W.2d 813, 814-15 (Tex. 1995).

DuPont objects to this request as vague, ambiguous and confusing. DuPont objects to the terms "dangerous condition or activity" as vague, ambiguous and subject to different interpretations. DuPont objects to this request as overbroad, unduly burdensome and irrelevant to the extent it is not limited to the time periods that Plaintiff was allegedly present at the LaPorte site or to site conditions which allegedly contributed to Plaintiff's injury. DuPont further objects to this request that it produce "all title documents" to support its contention, because, while the Texas Rules of Civil Procedure allow a party to ask for the general factual bases of another party's contentions, it also prohibits requiring a party to marshal all of its available proof or the proof the party intends to offer at trial.

REQUEST FOR PRODUCTION NO. 42:

If you contend that you did not own or control the facility(ies) during any portion of the time Period At Issue, please produce all documentation that supports your contention, including but not limited to documentation pertaining to the purchase, sale, acquisition, merger, or divestment of corporations, subsidiaries, divisions, or other corporate entities or assets that included the purchase, sale, acquisition, merger, or divestment of the facility(ies); such documentation to include, by way of example and not limitation, purchase or sale agreements, minutes, resolutions, annual reports, 10K reports or other state or federal agency filings, or deposition, trial testimony or affidavits of your corporate representatives who are the most knowledgeable individuals with respect to such matters.

RESPONSE:

DuPont objects to this request for the reason that it is overbroad, ambiguous and not limited to the LaPorte site during the time periods Plaintiff allegedly was present on that site. DuPont objects to the term "control" for the reason that it is vague, confusing, and subject to various interpretations.
